NEWS OF THE DAY.

—Dom Pedro visited the State University at San Francisco yesterday.

—The straits of Mackinaw are open now, and lake navigation is unobstructed.

—Bismarck, with a very plausible speech has opened out the campaign, to secure the German railways.

—The minority report on the State Treasury Investigation, makes everything lovely and the goose altitudinum.

—John Bright is a brave man, and yesterday opposed the Woman Suffrage bill in Parliament; but they say he is baldheaded, anyhow.

—The new labor law—the gist of which is published elsewhere—will be interesting reading to workingmen, and all who draw wages for labor.

—Mr. McKee was salted down yesterday, at St. Louis, pretty severely. In his case especially the way of the transgressor has not been a path of roses.

—Yesterday afternoon there was an explosion at Hope Goods Torpedo factory, in New York, by which ten or twelve girls were seriously injured and two others fatally.

—The long talked of cut off opposite Vicksburg seems to be partly made; quite a heavy current now running across the point between the elevator and cotton compress.

—"Brother, why don't you ask the stranger to pray?" "Because," reprovingly observed a deacon, "this ain't no place for practical jokes. That man's the President of a gas company."

—There are now twenty-six candidates for the Democratic nomination for Governor of Georgia, and more coming. There are seven judges, six generals, three colonels and no end of lesser dignitaries.

—The blockade in the reception of goods for the Centennial at Philadelphia, is being raised by the energetic efforts of the managers who have partially restored order out of confusion. It is now thought that three-fourths of the goods will be in place by the opening day.

—Frank Carley, aged eighteen, shot and killed Joseph E. Davidson, aged fourteen, near Albany, Missouri, on Monday evening. The sanguinary affair occurred in the yard attached to the premises of the victim's father. No cause is is assigned. Carley has not been captured.

—Judge McAllister, of Chicago, yesterday gave verbally the decision of the full bench of the Circuit Court in favor of the legality of temporary loans by the city in anticipation of the revenues when the appropriations and tax levies have been made. This settles a vexed question.

—Joseph W. Harrer, formerly a police sergeant, shot, and it is thought mortally wounded William R. Hess, a police Lieutenant in Philadelphia. Harrer had been discharged for drunkenness. Hess cared for his deserted family. Harrer became jealous, and the shooting was the result. Harrer gave himself up.

—A new effort to make the Government secure as a creditor of the Union Pacific Railroad, appears in the report of the Judiciary Committee to the House. This plan assumes that the Government has a right to alter the contract made with the company, because Congress reserved the right to amend the charter. There is evidently here a nut for constitutional lawyers to crack.

—Mr. Jones, of Nevada, ought to be an authority upon silver, but whether his views are right or wrong, they can carry very little weight, for the simple reason that he is not a disinterested authority. When a man is known to hold the largest stock of silver in the world gets up to argue in favor of a measure to increase its value, a skeptical public may be pardoned if it decline to accept his opinions without question.

—Mr. Clymer, of Pennsylvania, has been in hot water, so to speak, since the rejoinder of Belknap's counsel to the replication of the managers of impeachment. He acknowledges that he met Montgomery Blair on the day when the charges against Belknap were brought before the House, and told Blair that if Belknap was an official at noon of that day he would present articles of impeachment against him in the House.

—Last Sunday Judge J. E. Carson, of Crab Orchard Springs, Kentucky, was shot and killed. It is alleged that it was done without provocation by one John Smith. Yesterday morning Smith was brought before the Court for trial, but not being ready was granted further time. He then left in the charge of the officers, but on the way to the prison several sons of the deceased Judge endeavored to kill him. Their attempt failed, and caused their arrest, but having promised to not again attempt to kill Smith they were released.

NOTES FROM THE CAPITAL.

WASHINGTON, April 26, 1876.

THE Secretary of the Treasury has directed the payment of the May interest, amounting to over ten millions dollars, to be commenced to-morrow, without rebate.

IN the Louisiana contested election case six members of the committee will report in favor of seating Spence, Democrat, three in favor of retaining Morey, Republican, and one (Baker) will submit a resolution declaring the seat vacant.

GEN. E. W. RICE, of Iowa, to-day testified before the Committee on Expenditures in the War Department to the effect that he had received about $12,000 from post traderships and for interesting himself with the Secretary of War to procure appointments for his friends. Gen. Belknap nor any one else had any interest in his matters.

THE Committee on Expenditures in the Department of Justice adjourned till to-morrow, when Davenport promises to produce vouchers for all moneys received and expended for the suppression of frauds in New York. His presence before the committee to-day resulted in showing that the committee would not permit him to explain in his own way, and that he was disinclined to adopt the committee's plan.

STEPS are being taken by the Attorney General to take possession for the government of the Hot Spring reservation in Arkansas. Judge Pierrepont will move for the appointment of a Receiver for these lands. It is understood that threats have been made against persons attempting to take possession for the government, and in this event it is certain that troops will be brought into requisition to enforce the decision of the court.

THE House Committee on Pacific Railroad to-day came to a favorable conclusion on the Senate bill giving eight years additional time to the Northern Pacific Railroad Company to construct and complete their road. Mr. Throckmorton will at the next meeting submit an amendment to the bill requiring the Texas Pacific Railroad to build twenty miles of road from San Diego eastward within the next two years, and extending the time for the completion of the road to 1890. Mr. Luttrell will also submit an amendment allowing all settlers within the land grant to perfect their titles and affording others an opportunity to purchase land at twenty dollars and a quarter an acre. The Texas Pacific Railroad Company is required to complete thirty miles of road from San Diego eastward each year, and to complete the entire road in six years. Failing to do this the lands granted to the Texas Pacific road are to be given to the Southern Pacific, or any other company that will build the road.

FOREIGN FLASHES.

EUGENIO LOPEZ, a merchant, failed on Tuesday in London. Liabilities £50,000.

THE Arctic steamer Pandora will sail from London on May 25th on a voyage to the North.

A VIENNA dispatch says the Austrian Government officially denies an intention of occupying Bosnia.

AT THE Epsom races yesterday the Metropolitan stakes were won by New Holland. The American horse, Bay, came in sixth.

THE news current in diplomatic circles at Berlin strenghtens the chances of renewed armistice and successful negotiations with the insurgents.

A VIENNA dispatch says the Porte has been diplomatically cautioned against arming the Mahometan population. The insurgent provinces are evading the danger of a wholesale massacre of Christians.

SO FAR eight corpses have been removed from the ruins of the Theatre Des Arts, burnt at Rouen on Tuesday night. About seventy-five persons were in the theater when the fire broke out, but the exact number of victims has not been ascertained.

THE Hungarian Ministers at Austria have again placed their portfolios at the disposal of the Emperor, and negotiations have recommenced in consequence of the dissatisfaction of the Hungarian Deputies at the terms of the proposed agreement.

THE House of Commons yesterday voted down the Woman Suffrage bill by a vote of 239 to 152. Jacob Bright, Henry Fawcett, Forsyth and other well known Liberals supported the measure. John Bright, however, strongly opposed the bill, as its principle was untenable and was contradicted by all past experience.

THE Austro-Hungarian Cabinet dispute threatens to precipitate a crises in the political relations between the two countries. Although under one ruler there exists a rivalry of interests, which Ministers sometimes find extremely difficult to deal with. The subjects of the Emperor of Austria do not like those of the King of Hungary, and the Emperor-King is in a pretty fix between them both.

The Bituminous Ventilation Bill Passed by the Senate.

South Side Secession Passed on Second Reading.

Disagreement Over the General Appropriation Bill.

The House Wrangling Over the Boom Bribery Business.

Special to the Pittsburgh Gazette.

HARRISBURG, April 26, 1876.

SENATE.

General Appropriations.

The General Appropriation bill passed, and was sent to the House for concurrence in the numerous Senate amendments.

Bituminous Ventilation.

The Bituminous Ventilation bill was taken up.

Mr. WOOD made a speech against the bill, urging that it was in opposition to the interests of miners and operators.

Messrs. STANTON, of Luzerne, and BECHTEL, of Schuylkill, said they would vote for the bill because it had been accepted as a compromise by all parties.

Mr. NEWMYER supported the bill and replied to Mr. Wood, and criticised his position as inconsistent.

Mr. LAWRENCE, of Washington, favored the bill.

It passed by the following vote: Ayes 43; nays 2, Mr. WOOD voting for it.

The Senate then took a recess.

AFTERNOON SESSION.

Bills on Second Reading.

The Senate met in afternoon session at four o'clock, and considered and passed on second reading a large number of House bills, mostly of local importance. The following were among the most important:

An act to repeal the supplement to the several acts incorporating the city of Pittsburgh, enlarging its boundaries, &c., as to the boroughs of Mount Washington and Mount Union.

The intent of the above act is to allow the secession of the Thirty-second and Thirty-fifth wards, South Side, from the city of Pittsburgh. It is extremely doubtful whether the bill will finally get through the Senate, and even if it pass, it is said the Governor will veto the bill.

An act repealing the local option law of the township of Derry, in Westmoreland county.

Centennial Managers.

The Governor has appointed the following named gentlemen to be a State Board of Centennial Managers for the International Exhibition: Messrs. Morton McMichael, John H. Shoenberger, Foster W. Mitchell, Andrew G. Curtin and James A. McCrea.

Adjourned.

HOUSE.

The Boom Bribery.

Mr. WOLFE introduced resolutions that the Boom Investigating Committee should re-hear the cases of Lynott and Petroff, and give them an opportunity to be defended by counsel and produce witnesses in their defense.

An exciting debate immediately sprang up, in which criminations and recriminations were freely indulged in, and from which the committee came off worsted. The debate was carried on by Messrs. Plummer, Wolfe, Spang, Christy, Petroff, one of the accused, Parker, Huhn, Hannan and Reyburn, and lasted the entire morning.

Mr. LONG finally stopped the business by a motion to postpone the whole matter until the testimony is printed.

Conference on the General Appropriation Bill.

The House refused to concur in the Senate amendments to the General Appropriation bill. A Conference Committee was appointed.

State Treasury Investigation.

Mr. BAILEY presented a report from a minority of the committee appointed to investigate the affairs of the State Treasury, controverting certain statements and conclusions arrived at by the majority of the committee.

The House then took a recess.

AFTERNOON SESSION.

The House met in afternoon session at three o'clock. The following bills were considered on third reading and

Passed Finally.

An act converting the Marine Hospital at Erie into a hospital for insane criminals, and making an appropriation of ten thousand dollars to carry out the provisions of the same. An effort was made to transfer the above institution to Tracey University, but the scheme was defeated through the efforts of Messrs. Christy and Reighard.

An act making an appropriation for the current school year.

A supplementary act for a Chief Clerk in the office of the Secretary of Internal Affairs, and creating him Deputy Secretary of Internal Affairs, with powers to sign official papers.

In Memoriam.

Mr. HARTSHORNE offered resolutions of condolence on the death of a late member, Simeon Power Ryan, of Columbia county, and paid a touching, eloquent and fitting tribute to his many virtues, character and memory. Messrs. McHenry, Losch, Foster, Butler, Spang, Mitchell, and Speaker Patterson made addresses, after which the House adjourned.

Morganza Reform School.

The Senate committee this afternoon, on the bill making an appropriation to the Morganza Reform School, struck out the House amendment giving to the State Board of Public Charities the right to appoint seven-twelfths of said managers, and the Senate will insist that the appointment of said managers be made by the Governor. It is feared by the friends of the institution that unless a compromise be made in regard to the appointing power, it will endanger the bill.

Boom Investigation.

The Senate Boom Investigating Committee held a session to-night, and they will probably report to-morrow. K.

The State Treasury Investigation.

The report of the minority of the committee appointed to investigate the accounts of the State Treasury has been presented. It is signed by Messrs. E. W. Bailey and R. R. Chrisman. It is quite a lengthy document, but in substance it makes the following points:

The minority explain the fact of their offering the report on the ground that the majority made two reports during vacation,—one to the Governor and one to the Auditor General,—and also made a third report to the Legislature at its present session, all of which are calculated to mislead. The minority then takes issue with the statement in the Majority report of July 16, 1875; that the State Treasurer (Mr. Mackey) "refused to recognize the committee, denied that they had any authority to investigate, and would not permit their accountant to even look at the books or papers" of the Treasury Department. This statement, the minority say, is not correct, except in its allegation that the accountant was not permitted to make the examination which the resolution of the House directed the committee to make. They say when they called the Treasurer was away, but the Chief Clerk by instructions previously received from the Treasurer placed at their disposal the books, a room and all other aids to assist them in their work. They went through the accounts, commencing with that of Wm. V. McGrath, down to the present Treasurer. Subsequently, however, when a sub-committee appeared, with an accountant, permission for this accountant to interfere with the affairs of the office was refused on the ground that there is no authority of law for such examination by a private citizen, even granting the power of the committee to make it. It was stated, though, that any member of the committee might look at the books.

The minority justify the refusal to permit this accountant to look at the books, by the fact that he had not the permission of the full committee, that he was not under oath, and that the present Constitution forbids compensation to any such appointee, for it expressly prohibits the passage of any bill "providing for the payment of any claims against the Commonwealth *without previous authority of law*," and there was no authority of law for the appointment of such an inquisitor.

The report next discusses the fact that the authority of the committee to compel witnesses to give testimony was openly disregarded, and says that thus the substantial result of this examination comes in the shape of a large bill of expenses which might well have been avoided, even if it can be legally paid. The minority claim that the committee should not be compelled to incur expenses, the payment of which is prohibited by the Constitution; and that the freedom of the citizen from all improper interferences with his natural rights should be maintained. Hence they suggest that a law should be passed, providing how investigating committees shall be appointed, and defining explicitly their powers and the expenses which they are authorized to incur.

Reference is next made to the Sinking Fund, and the minority say: The majority animadvert severely upon the action of the Sinking Fund Commissioners in relation to the credit of $2,867,817.32 on the Sinking Fund ledger, which was made to enable the State Treasurer to carry out the provisions of the act of May 9, 1874.

The majority do not claim that the act of 1870 did not authorize this action, nor that the State lost by it, but they claim that the fact of this deficiency was concealed by the publication of the apparent balance as though it was the actual balance, and that the payment of the money out of the Sinking Fund, even though it went to meet the expenses of the Government, was unconstitutional, because the Sinking Fund is made sacred for the extinguishment of the public debt. In reply to this the minority produce the following figures from the last annual report of the Governor:

Public debt Dec. 1, 1864	$39,379,603 94
Public debt Dec. 1, 1875	23,233,137 74
Total reduction in eleven years	$16,146,466,20
Average annual reduction	1,467,860 56

They thus show that during all these years, in which it is alleged that the sinking fund has been impaired, besides the interest (which has averaged more than a million and a half of dollars each year) there has been paid on the debt nearly six times the amount required to be paid by the constitution. The minority therefore held, that these facts should justify the action of the Sinking Fund Commissioners referred to especially as it was authorized by express authority of law, permitting a transfer from the sinking fund when "required for the ordinary and current expenses of the Government. To that fund certain revenues are expressly assigned by the Constitution; beyond such assignment there is room for legislative discretion, if exercised in such a manner as to secure the annual reduction of debt expressly required. There was not evidence, nor is there any pretense that a single dollar has been paid from the treasury without authority of law. The expenses of the late war and the payment of about half a million dollars annually since its close to educate the children of those who lost their lives in it; the appropriation of largely increased sums for common and normal schools and for public charities, have required large sums of money from the treasury annually, and it is to meet these demands that the Legislature has authorized their payment." Under these circumstances the minority are unable to find any fault with the present or former State Treasurers or Board of Sinking Fund Commissioners on account of the payment of these moneys from the treasury.

In reference to the charge that no interest has been paid into the Treasury on balances in the hands of the Treasurer, the minority say the Treasurer is required to give bonds in the sum of $500,000; that he is liable for any loss of moneys to the State; that the receipts and expenditures cannot at all times be so evenly balanced as to prevent some accumulation, and at the same time preserve the faith of the State, and even though the balances did exist at times, "there was no evidence to satisfy us that any interest has been received for use of the public moneys by any Treasurer whose accounts we were appointed to examine, and in the absence of such evidence we are unwilling to presume its receipt in the face of an act of Assembly which makes it a misdemeanor punishable by fine, imprisonment, and removal from office."

In reference to the alleged disregard of the act of 1874, which requires the surplus moneys to be applied each quarter to the payment of the public debt, the minority take direct issue with the majority, and say they believe the money has been so applied.

In conclusion, the minority speak in very commendatory terms of the manner in which the finances of the State have been managed during the thirteen years which they reviewed,—a period when there were frequent charges of fraud, but of which charges no evidence has been produced.

The report was received and ordered to be printed.

A New Labor Law.

The bill drawn and introduced by Representative Billingsley, of Washington, regulating appeals from judgments in cases heard before Aldermen and Justices of the Peace, when the laborer is suing for wages, has passed both houses, and has been signed by the Governor. It provides that in all cases where a laborer has secured judgment, an appeal shall not be granted defendant until he, or his attorney, shall make oath that the appeal is not intended for the purpose of delay; but is asked for because defendant believes himself unjustly treated by the judgment against him. Upon this being shown he is required to furnish bonds for the payment of the debt with costs, pending final judgment.

The act further provides that no voluntary assignment for the benefit of creditors shall intervene, for longer than thirty days, to prevent the collection of claims for wages. And, in all cases of voluntary assignments heretofore made, claimants, protected by the provisions of the act pertaining to the wages of mechanics, miners, laborers and others, in cases where the assignee or assignees have more than five months in which to settle their accounts, may immediately proceed to the collection of such claims, just as though no assignment had been made.

THE FIRE UNDERWRITERS.

Annual Convention of the National Board in New York—Reports of Officers and Committees.

NEW YORK, April 26.—At the annual Convention of the National Board of Fire Underwriters to-day the principal companies of the United States and Great Britain were represented. The Treasurer's report for the year showed the receipts to be $134,000, and the expenses $133,000. President Oakley delivered the annual address. The amount of capital employed the past year was $55,000,000, an increase of $2,000,000 over 1874. Dividends on this capital averaged 132 1-15 per cent. The total amount of premiums received during 1875 by American companies was $50,000,000, and by foreign companies $11,000,000, a decease of 1 70-100 per cent. compared with 1874. The losses for the year paid were $28,000,000. The increase in the amount of risks assumed during 1875 is $290,000,000. The loss rate in the past year has steadily increased. Renumeratives rates should be adhered to.

The report of the Committee on Incendiarism and Arson was presented. It shows that during the past year at least thirty-five per cent. of the number of fires were caused by incendiaries, while fully fifty-five per cent. of the property destroyed was lost by the same cause. The report recommends the offering of rewards for the arrest and conviction of incendiaries. The fires for the year were 3,946, and were caused by flue defects 88, matches 214, spontaneous 100, accidental 577, carelessness 777, miscellaneous 343, unknown 461, incendiary and supposed incendiary 398, and petroleum in all its forms 308. Defective flues and chimneys cause daily fires.

The report of the Committee on Fire Department, Fire Patrol and Water Supply recommended the establishment of fire patrols in every city, and that they should be partly sustained and supported by the cities where they were located. New York City has not not a sufficient water supply for its protection in case of emergency. Chicago was credited with having the best fire department.

A resolution was adopted condemning the law requiring companies to deposit certain sums with the State as security for policy holders. Petroleum as a lubricator was considered dangerous, and the cause of many fires. A committee was appointed to define what should be the standard flashing point.

THE BROOKVILLE FIRE.

A List of the Sufferers and Their Losses.

BROOKVILLE, PA., April 26.—The losses by the fire last night are: S. J. Marlin, loss $1,000, fully insured; R. P. Blood, druggist, loss $2,000, insured; Mrs. A. F. Anderson, milliner, loss $150, no insurance; Mrs. McFarland, dressmaker, loss $200, no insurance; Paul Dailing's office, loss $5, no insurance; Miss L. Gordon, dressmaker, loss $150, no insurance; Miss A. E. Snyder, milliner, loss $200, no insurance; E. C. Hall, photographer, loss $1,500, no insurance; T. B. McLain, merchant, loss $6,000, insured for $3,000; C. M. & J. N. Garrison, three buildings and office furniture, loss $1,000, no insurance; A. Spangenball, meat market, loss $200, no insurance; C. W. Stebbins, dentist, loss $200, no insurance; J. S. King, dwelling, loss $100, no insurance; Bishop Hein, loss on three buildings, $6,000, no insurance; Edward English, loss on furniture $500, no insurance; W. A. Thompson, merchant tailor, loss $25, no insurance; M. B. Laevley, dentist, loss on building and contents $250, no insurance; Joseph Henderson, loss on building and furniture, $700, no insurance; Colby & Beck, grocers, loss $25, fully insured; Mrs. R. M. Steck, residence, loss $400, fully insured; M. Rodgers, three buildings, loss $5,000, insured for $2,000; Clement's House, damaged to the extent of $1,000, no insurance; American House, damaged $200, fully insured.

M'KEE SENTENCED.

Two Years in the County Jail and $10,000 Fine.

ST. LOUIS, April 26.—In the United States Circuit Court this morning Judge Dillon overruled the motion in arrest of judgment in the McKee case, and sentenced him to two years in the county jail and to pay a fine of ten thousand dollars. Judge Krum asked a stay of commitment until a petition to Washington, asking for the remission of the imprisonment part of the sentence, could be heard from, and the Court granted a stay of two weeks, requiring the defendant to give an additional bond of twenty-five thousand dollars. A stay of two weeks was also granted in the case of Con. Maguire.

FRANCE.

The Fire in Rouen.

LONDON, April 27.—A Paris correspondent says the fire in the Theatre Des Arts, in Rouen, broke out while the actors were dressing for the performance, and was discovered before the public were admitted. The flames spread rapidly, and the outlets of the building were so narrow that the exit of the members of the chorus and supernumeries was cut off, and the poor people crowded the windows, many leaping from them upon bedding piled below by the inhabitants. One chorus singer was visible for an hour in an upper window, beyond the reach of help. Four soldiers were killed and fifteen wounded in endeavoring to save lives. About fifty persons were badly injured. A leading singer, Madame Pzys, entered the burning building in search of her husband, and perished in the flames.

A *Times* dispatch from Paris says the theater at Rouen continued to burn until noon yesterday. It was caused by a gas jet igniting the curtain. In addition to the victims whose bodies have already been found four persons died in the hospital, and four soldiers are missing. Twelve houses adjacent were also destroyed. The loss is estimated at $400,000.

GERMANY.

Bismarck on the Railway Purchases.

BERLIN, April 26.—The Prussian Chamber of Deputies has commenced the discussion of the railway bill. Bismarck in his speech emphatically declared that the resignation of Herr Delbruck was unconnected with the railway question, and was solely due to his health. Not the slightest difference of opinion existed between himself, the Emperor and Herr Delbruck.

Bismarck afterwards made another speech, in which he urged that it was intolerable that Germany should be cut in pieces in regard to her railway system. He said the Imperial constitution could only become a reality in railway matters when the railways were transferred to the Empire. The Empire, however, could not acquire them against the whole of the separate States. It was not intended to do anything precipitately, but proceed step by step. It was desirable, above all things, to banish all idea of political intrigues, and take purely a commercial view of the matter.

DENMARK.

Excitement Over the Elections.

COPENHAGEN, April 26.—The election for the lower House of the Rigsdag resulted in the election of seventy-four opponents of the Government's national defence bill, an opposition majority of forty-six. The House was recently dissolved because there was a majority of eighteen against the measure. Among its defeated supporters are Klein, late Minister of Justice, and Count Holstein de Holsteinberg, late President of the Council. The leaders of the opposition are all elected, and the country is greatly excited. A fresh dissolution of the Folkeking is inevitable.

TURKEY.

The Siege of Nicsic.

RAGUSA, April 26.—The garrison of Nicsic made a sortie on Friday last to procure provisions from Paesjeka, but were repulsed. It is stated that Nicsic is reduced to extremities, the garrison and inhabitants subsisting on horse-flesh.

ALGIERS, April 26.—The insurgents are surrounded by French troops, and must surrender.

HARRISON TELLS HIS STORY.

A Circumstantial Account of the Dreadful Scandal That was to "Kill Blaine Off."

CINCINNATI, April 26.—The *Gazette* to-morrow will publish an interview with Mr. John C. Harrison, of Indianapolis, in relation to the Blaine matter. The substance of the statement is as follows: At the meeting of the Board of Directors of the Union Pacific Railroad, in September, 1872, Horace F. Clarke called the attention to a letter from the President of the Ft. Smith & Little Rock Land Great Railroad with reference to some bonds of that road held by the Union Pacific Company. Mr. Harrison made a motion for the appointment of an Investigating Committee of three, whereupon E. H. Rollins, the Secretary, took him to one side and told him that an investigation would hurt James G. Blaine, and as the fall elections were at hand and Blaine a candidate for re-election the investigation would defeat him. Harrison then withdrew his motion. Subsequently Harrison took J. H. Millard with him to Rollins, and Rollins in the presence of both repeated his former declaration and said an investigation would kill Blaine.

Afterward Harrison telegraphed to Jeremiah Wilson, Chairman of the Investigating Committee at Washington, certain questions to ask E. H. Rollins, who was on the stand, but these questions were not asked. Harrison next wrote to Wilson on January 3, 1873, more fully about the matter, stating that the matter involved a prominent Republican, but not mentioning Blaine's name. The letter is on file. No answer came, but twenty-three days after Columbus Delano, Secretary of the Interior, wrote to a prominent Republican official that it had been decided by the Government to change the Board of Directors of the U. P. R. R., and Harrison was to give way to a man from Indiana, but the change was not made owing to great opposition.

Mr. Harrison next proceeds to deny that this movement was made against Mr. Blaine as a Presidential candidate, as it was in 1872-3 when he was not mentioned as a candidate. The matter would have gone into the United States Courts, but for the failure of the Credit Mobilier suits. In conclusion he cites an order from the Executive Committee, dated at New York, December 10, 1871, ordering Morton, Bliss & Co to draw on the Treasurer of the Union Pacific Railroad Company for $64,000, at forty days, and hold as collateral security seventy-five land grant bonds of the Little Rock & Ft. Smith Railroad Company, at $1,000 each. He is ready to go on the stand and swear to this statement.

MASSACHUSETTS POLITICS.

Republican State Convention at Boston—Delegates Elected to the National Republican Convention.

BOSTON, April 26.—The Republican State Convention met in Tremont Temple to-day. John E. Sanford was made permanent Chairman. Resolutions approving the energy and courage of Bristow, and associating the name of Blaine with the office of President were tabled. A resolution was unanimously adopted that the delegates to the National Convention be unpledged, but requiring them to work and vote for candidates whose character gives an unquestionable assurance that they will be faithful and zealous to maintain the equal rights of all, to bring about the resumption of specie payments at a date not later than that already fixed by law, and to effect a thorough and radical reform of the civil service, to the end that the administration of public affairs may be characterized by efficiency, economy and purity. The following delegates at large were elected: R. H. Dana, Jr., J. M. Forbes, E. R. Hoar, and Paul R. Chadbourne. The delegates were authorized to fill vacancies, thus doing away with the necessity of balloting for alternates.

The friends of Bristow consider that they have secured a majority of the delegates elected to-day. It is stated that Dana and President Chadbourne are outspoken in his favor, and that Forbes, although mentioned on the unpledged ticket, may be considered a Bristow man. Hoar is unwilling to pledge himself, but is understood to favor Blaine for first choice.

The New York Democracy.

NEW YORK, April 26.—The Democratic State Convention met in Utica this morning and organized temporarily by the election of Senator John C. Jacobs as chairman. There is a bitter conflict between the Tammany and anti-Tammany delegates from New York city. Each have entire delegations present, and the fight for supremacy was made in the appointments to the Committee on Contested Seats. The Tammany delegates did not succeed in securing a sure thing, and after five adjournments, there being no probability that the committee would arrive at a conclusion to-night, an adjournment was taken until to-morrow morning. Tilden is afraid to go back on Tammany Hall, and he is also afraid to offend John Morrissey and his crowd of Reformers (?) He is between the horns of a dilemma, and which ever way he moves he is likely to be gored.

FORTY-FOURTH CONGRESS.

FIRST SESSION.

WASHINGTON, April 26, 1876.

SENATE.

Printing Public Documents.

Mr. ANTHONY, from the Committee on Printing, called up the Senate bill to facilitate the printing of public documents. Passed.

Revenue Officials.

Mr. SARGENT submitted a resolution directing the Secretary of the Treasury to inform the Senate how many persons are now employed as Revenue or Internal Revenue Agents, giving the date of their respective appointments, and also to inform the Senate whether in any cases special rewards have been paid to or received by any such agents, whether moneys have been disbursed by any such agents, whether any, and if so, which of them have been or are under the direction of any person other than the Secretary of the Treasury, and not a subordinate of the Treasury Department, and if so, by virtue of what statute or other authority. Agreed to.

Pensions.

Mr. SHERMAN presented a joint resolution of the Ohio Legislature in favor of amending the pension laws in regard to filing claims for pensions. Referred.

The Silver Bill.

The Senate resumed consideration of the unfinished business, being the bill to amend the laws relating to the legal tender of silver coin.

Mr. SHERMAN submitted an amendment to the second section so as to authorize the Secretary of the Treasury to exchange subsidiary silver coin of the United States for an equal amount of United States notes, as well as silver dollars authorized to be coined by the bill, such notes to be retired and canceled, and not be again replaced by other notes. Ordered printed.

At the request of Mr. Morrill (Vt.) the silver bill was informally laid aside.

Educational Fund.

After the expiration of the morning hour, Mr. MORRILL (Vermont) called up the bill to establish an educational fund and apply a portion of the proceeds of public lands to public education, and to provide for the more complete endowment and support of national colleges for the advancement of scientific and industrial education, and made a speech thereon.

At the conclusion of Mr. Morrill's speech, Mr. MOXEY (Texas) submitted an amendment in the nature of a substitute for the educational bill. He explained the substitute, and said it consecrates the net proceeds of the sale of public lands to the support of common schools, endowment of colleges, &c. It did not interfere with the preemption and homestead laws. It distributed the money raised among the several States and Territories and District of Columbia, according to population, and it does not interfere with the management of schools and colleges, leaving that to the control of the States and Territories.

The bill and substitute were laid aside, and the Senate took up the bill in relation to the Japanese indemnity fund. Without action the Senate went into executive session, and soon after adjourned.

HOUSE.

Lobbying Against Salary Reductions.

Mr. WHITE had read a newspaper article charging the Clerk and subordinates with lobbying against the reductions in the Legislative appropriation bill, and offered a resolution directing an inquiry into the truth of the charges. Agreed to.

Charged with Poisoning.

Mr. WHITE then had read a letter to himself, containing a vague charge of poisoning against the Engineer of the House, the writer of which was subsequently appointed Assistant Engineer. Referred.

Army Reduction.

On motion of Mr. BANNING, the bill for the reduction of the army was made a special order for Wednesday next.

Investigation at New Orleans.

Mr. GIBSON offered a resolution for the appointment of a select committee to make a thorough investigation of the conduct and management of the custom house and other Government offices at New Orleans, and to suggest necessary changes and reforms, with power to sit in New Orleans, to report at the present session, and that the proceedings of the committee be public. Adopted.

Legislative Appropriation.

The House then went into Committee of the Whole on the Legislative Appropriation bill, commencing with the appropriation for the War Department.

After progressing as far as page 59, leaving only eight pages to be disposed of, the committee rose.

The Deficiency Bill.

Mr. WELLS, from the Conference Committee on the Deficiency bill, made a report, recommending that the Senate recede from three of its amendments, and that the House concur in three others of its amendments, none of them of any importance. The report was concurred in.

West Point.

Resolutions were offered by Messrs. BANNING and RANDALL calling for information as to the sale of commissary articles and as to the amount of the post fund at the Military Academy at West Point. Adopted.

The House then adjourned.

—The Republican State Convention of California met yesterday at San Francisco, adopted a series of resolutions, and elected a part of the delegates to the National Convention. Of the eight chosen, seven were for Blaine and one for Bristow.

GOLD closed in New York yesterday at 112⅜.

PRENDER, who started that sensation concerning alleged frauds in the handling of moneys in the Treasury Department, has been called upon for his witnesses, and he is likely to have as much "investigation" as will be healthy for him.

IT IS evident that a bitter fight will take place in the New York State Democratic Convention, over the plan to set up a delegation in the interest of TILDEN. The Governor is sufficiently frightened over the outlook to have engaged rooms at Utica, and will be present to manage his interests in person.

MR. CAULFIELD'S Democratic Committee is not so anxious now as it was at first to have its proceedings made public. The revelations made give such a picture of Democratic election frauds that Mr. CAULFIELD would, if he could, withdraw. He stirred up a hornet's nest that time, and the result is not pleasant.

THE notice of a motion given by HENRY FAWCETT, in the English House of Parliament, to practically censure the Ministry for the Imperial Titles bill, is regarded as rather beneficial to DISRAELI than otherwise. FAWCETT is an intense radical, and his prominence in the affair will cause the Conservatives to rally all the more strongly to the bill, and probably sustain it in spite of all the protests that may be made.

MOULTON offers a new proposition to BEECHER—or rather several of them—the sum of them all being that he shall name some of the jury, BEECHER others, and those so chosen, shall make the final selection. To the jury thus selected, MOULTON proposes to submit all the evidence. If BEECHER wants the scandal fairly investigated it is hard to see how he can reject such overtures, but as this whole business has been a series of surprises, it will not be surprising if the Plymouth divine refuses to submit the case to such a jury.

THE proposed treaty of commerce between France and the United States will prove beneficial to our cotton manufacturers, in that our cotton goods will be subject to but light duty. In losing Alsace and Lorraine France lost her chief cotton manufacturing territory, and is not now particularly interested to protect that article of commerce. English cotton goods have been entered free in France since 1860, but American cotton manufactures have been discriminated against. She asks, in return for opening her ports to our cotton goods, that we do the same to her wines and silks. France seems very much inclined to a reciprocity arrangement, at least with us.

IT appears to be settled that ANNA DICKINSON is soon to appear on the Boston stage, in a play either written by herself or for her, and entitled the "Crown of Thorns." As a lecturer Miss DICKINSON made some reputation and accomplished good. Such she declares to be her mission in adopting the stage. She will not render the old plays, which are mere illustrations of human passion and propensity, but hers will be to inspire noble aims and purposes,—to teach and preach from the stage. We commend the motive, but are very doubtful of its success. The fact that she succeeded on the rostrum does not prove that she will on the stage; on the contrary it should have taught her that her

THE Duke of Edinburgh appears in London, rather than on board his vessel, and acted, the other evening, as President of a meeting of the Royal Geographical Society, on the occasion of the appearance and reception of Lieutenant CAMERON, who gave an account of his trip across the African Continent. Among the important facts developed by his expedition, we have that of the full exploration of Lake Tanganyika,—ninety-six rivers being found to flow into it, and only one,—the Lukuga—flowing out. His observations render it probable, but not absolutely certain that the Lukuga and Congo rivers are one and the same. He also found a new political power in Central Africa, presided over by a chief named KOSANGO, with whom he stayed four months. He traveled, in making his journey, 3,000 miles on foot, and took 5,000 observations, which are being computed at Greenwich observatory, and are declared to be the most accurate yet given. The young explorer is to be promoted to a Captaincy in the English navy.

THE state of affairs in Europe, resulting from the revolt of the Christian provinces of Turkey, is undoubtedly far more critical than is generally suspected. The unity and strength developed by the insurgents, their success and the encouragement attending it, constitute, to them, a very encouraging state of affairs; while Turkey's unfortunate financial condition and her ill success has had a depressing influence on her. The Sultan has evidently meditated the policy of staking all on one great effort to suppress the rebellion, but the great powers are opposed to this. The latest report is to the effect that it is agreed that Austria shall intervene between Turkey and her Christain provinces, and by stationing troops between the two territories, prevent farther collision of arms. Turkey would only yield to this under compulsion, as it compels her to keep up her army expenses while awaiting the slow progress of intervention. It is evident that the great powers are anxiously endeavoring to arrange an intervention among themselves; and if the territory can be amicably divided, it is anything but unlikely that we shall soon hear the last of Turkey in Europe.

THE bearing of the scandal business on reform is beginning to elicit discussion by the press. The ostensible motive of the Democracy in opening up this business is to purify the government. Without the putting forward of such reason, there would be no excuse whatever for the long continued scandal hunt to which we have been treated. But it begins to be observed that all the reform wrought, and indeed all the solid and valuable evidence secured, came from the Republican side. Take as an example the safe burglary case. The Democrats have been proudly boasting of their unparalleled efforts in that connection, and led the country to believe that were it not for them this matter would never have been satisfactorily settled. Yet it comes to light that the reopening of the case came directly from General GRANT'S Cabinet, and that the full extent of WHITLEY'S evidence was known there before the Democratic Committee received the first intimations of its character. WHITLEY was given a letter of immunity by the Attorney General in case he would tell all he knew, and he says the indictment against him is not worth the paper it is written upon. This fact proves which is the more earnest for reform, the Democrats or the Republicans. So in the BELKNAP case. Indeed, there is not an instance in which the administration has not actively promoted the development of truth, no matter who it hurt. But where the Democracy started on a wild goose chase after reputations that were pure, on evidence in itself corrupt, they were left to themselves, and a sorry mess they usually made of it. Their star-chamber methods, and the retention of testimony till it was sure it would only hurt Republicans, and then the sending forth of garbled extracts from it,—prove the precise object of the Democracy to be to gain partisan advantage by grossly dishonorable means. We therefore, even as regards the investigations had, can freely compare the records of the two parties, as to their sincerity in behalf of reform.

IT is at last admitted, by the resumptionists, that the new silver currency is gladly accepted by the people, and that the demand for it will be likely to exceed the $30,000,000 originally contemplated. Even despite the fact that silver is only a "token," and not veritable money, it is likely to be hoarded by the people until sufficiently plentiful to be in general use. Hence a bill has been reported by the Senate Finance Committee to continue silver coinage, so long as the demand continues. The Senate bill provides for the coinage of silver dollars of the standard weight, of which none have been coined since 1853, and these are to be a legal tender to the amount of $20. These silver dollars will have a value of some four cents greater than the small coins. When this weight was established for silver dollars, it bore the then existing proportion of the gold dollar that silver did to gold. Subsequently silver advanced, and our coins being worth more as bullion than coin were melted and shipped. For this reason the weight of the small coins was reduced and the coinage of dollars discontinued. Now the value of silver in gold has fallen to such an extent that the dollars may be safely coined at their old standard and be worth more as coins than as bullion. The Senate bill authorizes the exchange by the Treasury of these silver dollars for greenbacks. Hence these silver dollars will render service in retiring greenbacks, if that should be thought desirable, which will be a step toward resumption, and will maintain an equality of value between greenbacks and the silver dollar. Hence the issue of silver does not prove the terrible affair it was predicted to be.

FRANCE, despite the erratic qualities of her people, maintains a love of liberty that is quite romantic. LAFAYETTE represented the young and enthusiastic element which, in the days of our revolutionary struggle was drawn by its enthusiastic devotion to the idea of liberty, to come and fight with us. Now the proposition to erect a statue of Liberty in New York harbor, to commemorate this union in a common cause, is being carried into effect, so far as the raising of funds is concerned, in Paris. In these operations, there is the same enthusiasm as marked the proceedings of LAFAYETTE and his coadjutors. It is not, however, confined to youth. The venerable LABOULAYE, at the recent demonstration in the Opera House, in Paris, delivered an able address in support of the movement to raise funds for the statue. It is noticeable, that in this, and all other movements in aid of the specific object under mention, the feeling in favor of liberty of speech and thought far outran the immediate aim of the gathering, and represented the love of Frenchmen for liberty itself. It is an old love that never dies in France. Eighteen years of Empire may hold its expression in check through half a generation; but it breaks out afresh at the first opportunity. Surviving the barbarity of the Reign of Terror, and the excesses of the Commune, as well as the discouragements of repeated reverses, the sentiment of liberty in France is possessed of immortal vigor, and will not die. It cannot be otherwise than gratifying to us, that it should look fondly to us, after the lapse of a century, and be glad to memorialize our fraternity in a struggle which at least gave liberty to the people of this land.

THE DEMOCRATIC CANDIDATE.

After a long a time of surface quiet, but of active under surface work, the Democracy are getting in full earnest in Presidential manipulations. Events have simplified affairs, as PENDLETON has fallen out, and will probably take good care that THURMAN shall die with him. HENDRICKS has not gained in the race, his negative position on all questions seeming to drive friends toward him. Of all others in civil life TILDEN looms up strongest, although there is a serious disaffection in New York, and in several directions ex-Governor SEYMOUR is looked to as the promising man. But we venture that TILDEN has his party well in hand, and that he will control New York in his interest very perfectly. He is strongly supported by the Southern press, the Louisville *Courier-Journal*, being open and positive in his advocacy. A short time since it was thought that paper would support BRISTOW as a Kentucky man, but it is outspoken in its advocacy of TILDEN as against him. In this we do not, it is true, have so much an indication of opinion at the South as that TILDEN is capturing the independent press in his interest. The same influences that could take the New York *Tribune* away from DIX in New York could certainly control a journal like the *Courier-Journal*, and hence the inference that TILDEN is steadily at work in a very profitable direction. We have, in his candidacy, with its surroundings, a blow at BRISTOW, the leading journal in Kentucky being against him. There is, beyond this, nothing of particular importance in the movement.

We assume that the Republican party will nominate a good man,—which done, it really does not particularly matter who may be selected on the Democratic side. The vote of that party will go as readily now to SEYMOUR as to TILDEN, as the issues in both cases will be on the present, and not on the past record of either. It will really, with fair candidates, be the Republican party, contesting for the victory as against the Democracy,—party against party,—not man against man. The attempt to turn the contest into a mere personal race is not at all likely to occur. Nor is it necessary that the war record of either party should largely appear in the contest, as both have a more recent record on which the battle will be mainly fought. We hold that the year, during which the Democracy have had power in the States and the nation, they have so clearly developed all the bad traits of their early history, that they will not be trusted farther by the people. The candidate will not at all change this general fact. Whatever a man may do in a State, in the nation he is controlled by his party. It is the party, therefore, that is to be considered, and the Democratic party is not at all likely to be trusted by the people. The race for the nomination is made up of the belief that for the first time in many years they have a chance for election. We do not doubt that in this race TILDEN will come off victor, but we have not a moment's doubt of his defeat at the polls. The early advocacy of his name by the South will only hasten this result.

Assume TILDEN'S nomination under a Southern pressure, and we have the fact before us at once that the Democracy, North and South, are perfectly and strongly united. What is there in the Democracy at the South that is at all desirable? What have they shown in the present session of Congress that serves to restore them to our confidence? We have HILL'S speech in defense of the atrocities at Andersonville; LAMAR'S, in general defense of the rebellion; others, sustaining and approving the robbery of mails during the era preceding the war; the attempts to saddle millions of dishonorable Southern claims on the nation; the opening up, for purely partisan purposes, a round of scandals that were disgraceful to the nation, and shameful to any political party. These are a few of the many things that can justly be charged against the Southern controlling element in the Democratic party. Yet all the disgraceful and unfavorable things that stand against the party, as represented in Congress, were perpetrated at a time when they were on their good behavior,—a circumstance particularly important, in estimating their conduct at its true value. We do not, therefore, imagine that they will have much strength, compared with what they would have, were their record, during the past year, at all correct. We do not, therefore, estimate the Democracy as especially strong for the coming race. Whatever advantage TILDEN may give them will be fully offset by the record the party has made.

On the other hand, we hold that the events of the year have rather benefited than injured the Republican party. It is far better for it, politically considered, that the rumors continually circulated by "independent" papers should be investigated than that they should float around as unanswered accusations. Hence much of the campaign material that was expected to be at command, has been dissipated by the Democratic committees which have been keen to inquire into them. True the business has become stale and nauseous, but its general result, thus far has been beneficial to the Republican party. Hence viewing the entire situation we incline to the view that the Democracy have but small hope of placing their candidate in the Presidential chair. That TILDEN will be their choice, we do not doubt. We do not examine the demerits of TILDEN, reserving that for the time when he becomes a candidate. In the event of his attaining to that fortune, he will be carefully considered, both as to his personal and reform record. There have been those who, assuming the role of prophets, have predicted that on general principles we would have a change of party the present year; but the outlook, in our view, grows steadily more favorable to the Republican party. So let the battle of the candidates go on,—the people will determine the result.

THE EFFECTUAL PRAYER.

Mr. Moody's Way of Making Converts.

When the revival meeting In Brooklyn was at its heighth, a very wealthy, cultivated, and skeptical lady from New York went over there to hear Mr Moody preach. She was amazed and a little disgusted by his style of oratory. But for some reason which probably she could not have defined, she went again. Still again. On her fourth visit she passed into the inquiry-room and said to Mr. Moody that she would like to hear from him, directly and privately, his argument why she should become a Christian. He answered her, saying: "Madam, I know of no surer way to reach your heart than through prayer." Mr. Moody knelt. His manner was such that the lady could not choose but kneel beside him. He asked her to repeat after him his prayer. In low, earnest tones, and with all the tender and pathetic phraseology of which on such occasions he is a master, he uttered his supplication, pausing after each sentence for his companion to follow. The prayer concluded with the vow;

"And now, O Lord I give my life to Thee!"

"Mr. Moody," said the lady, in a hard, painful whisper, "I cannot say that; truly, I cannot."

Mr. Moody made no reply, nor did he change his position. There was a pause of half a minute. Then again he uttered the words:

"And now, O Lord, I give my life to Thee."

The lady trembling, did not respond. The evangelist paused for about the same space as before, motionless. And now with a voice still more resolute and fervid, he repeated for the third time the pledge. After a momentary interval of silence, the new convert said:

"And now, O Lord, I give my life to Thee!"

Mr. Moody rose, took his weeping charge by the hand with the words, "Madam, I devoutly thank God," and led her quietly to the door. She has ever since been actively employed in religious work.

THAT ROYAL JOURNEY.

Why the Queen Went to Germany.

The mystery attending the movements of the illustrious traveler, the Queen of England, is now exploded, and the cat is fairly out of the bag. His Royal Highness of Edinburgh being rather doubtful as to the permanency of monarchial institutions in Europe, is desirous of selling his prospective rights as the adopted heir of his uncle, the reigning Duke of Coburg, Gotha, and his mother who has always had the character of a shrewd business woman, has gone to negotiate the sale on neutral ground at Baden.

Bismarck & Co. have bid about $5,000,000 for it; the Queen stands out for $15,000,000, and will probably get at least two-thirds of what she asks. Indeed, the bargaining is merely for money down instead of an annuity chargeable on the duchy—a divergence of opinion between the British and German sovereigns as to the selling value of the property. Bismarck at first proposed $5,000,000 ready cash and an annuity of $300,000 charged upon the revenue of the duchy. This would be about the value of the capital sum of the $10,000,000 in dispute, supposing it invested in the English three per cents; and Bismarck, seizing this ostensible advantage, shrewdly argued in that sense, showing the Queen and her son that they would not lose any income by accepting the proposed arrangement; and that, inasmuch as the Duke of Edinburgh had children, he would feel naturally bound to preserve the capital of his fortune intact for them; because they could not absolutely count on being provided for out of the public taxation of either England or Russia. Queen Victoria, however, is said to have inquired "whether the Chancellor really considered the English three per cents a desirable investment, and whether a higher interest could not be obtained for money without incurring serious risk." "If it can, Madame," the Chancellor is said to have replied, "your princely son might be satisfied with less capital."

The fact is the German exchequer is not very full, and there are many claims on it. But there is very good reason to believe that Kaiser William and his Minister will find enough funds to buy the ducal crown of Coburg Gotha.

A SOMNAMBULISTIC FEAT.

A New York Girl who Takes the Palm.

Jennie Lawson is a member of the second class in the Eighteenth street Female Grammar School. Friday last a number of arithmetical examples were given out for solution, but three of them, in percentage, requiring long processes of division, resisted all Jennie's efforts to secure the correct answer. This circumstance seemed to distress the child, and after working through them again and again without success, she went home determined by persistent effort to find out where the error was, and she continued to strive until long after the rest of the family had retired. Towards midnight her mother, who slept in an adjoining room, called to her daughter that she had better go to bed, lest she should be late in rising the next day. The girl at once retired, and in a few moments was fast asleep. About an hour afterwards Mrs. Lawson was again awakened by a sudden noise in her daughter's bed-chamber, which was then in entire darkness. She called, but receiving no answer, arose to see what was the matter. Jennie was sitting at her desk, and had apparently just completed some work on her slate, the noise having been made by the falling of a ruler from the table to the floor. The girl was fast asleep. Mrs. Lawson did not wake her at that time, and on the following day it was after noon before the girl could be roused from the deep sleep in which she seemed to be. Upon awakening, Jennie spoke of the problems, and expressed her intention of making a further trial at their solution. Upon getting the slate she found them completely solved in her own hand, each line neatly ruled and the figuring without the slightest error. At this she was greatly surprised. Her last knowledge of the puzzling examples was of leaving them unsolved on the night before. Of her performances in her sleep she knew when awake absolutely nothing, and her mother not having mentioned the incident, left her the more bewildered. Yesterday the girl brought the work to school and related the incident attending it to her teacher. The room was entirely dark, the girl soundly asleep during the working out of the test examples. She had never before shown any symptoms of sleep-working, nor have any of her relatives been so affected.—*N. Y. World.*

Too Much "Loose Stuff."

If you will take an account of stock you will be astonished to see how small a part of humanity takes care of all the rest. Set aside the children, the sick, the feeble and the aged, and then it will be found, I think, that not more than one-half of society produces as much as it consumes. There are a great many, too many, men carrying on life, considering how they carry it on. It would be a sad thing, from a religious standpoint, to have all the people of the world die; but from the standpoint of political economy the ship would rise a foot if the loose stuff and lumber on the deck could be removed.—*Beecher's Last Boston Lecture.*

HERBERT SPENCER says that the gold ring now worn by married woman is the sign of the iron ring that was worn about the neck or ankle in olden times, and indicates the submission of the wearer. Mr. Spencer is a bachelor.

CONFESSING THEIR FAULTS.

A Charming Picture of Connubial Confidence.

A short time ago Mr. Grimes and his wife were sitting together one evening, and they got to talking about their married life and their past troubles until both of them grew quite sympathetic and affectionate. At last Mrs. Grimes suggested that it might help to kindle afresh the fire of love in their hearts if they would freely confess their faults to each other, and promise to amend them. Mr. Grimes said it struck him as being a good idea. For his part he was willing to make a clean breast of it, but he suggested that perhaps his wife had better begin. She thought for a moment, and this conversation ensued:

Mrs. Grimes—"Well, then, William, I am willing to acknowledge that I am the worst tempered woman in the world."

G. (turning and looking at her)—"Louisa, that's about the only time you ever told the square-toed truth in your life!"

Mrs. G., indignantly,—"Mr. Grimes, that's perfectly outrageous. You ought to be ashamed of yourself."

G.—"Well, you know it's so. You *have* got the worst temper of any woman I ever saw."

Mrs. G.—"No I haven't either. I'm just as good tempered as you are."

G.—"That's not so. You are as cross as a bear. If you were married to a graven image you'd quarrel with it."

Mrs. G.—"That's an outrageous falsehood! There isn't any woman about this neighborhood that puts up with as much as I do without getting angry. You're a perfect brute."

G.—"It's you that is a brute."

Mrs. G.—"No it isn't!"

G.—"Yes it is. You're as snappish as a mad dog. It's few men that could stand the like of you."

Mrs. G.—"If you say that again I'll scratch your eyes out!"

G.—"I dare you to lay your hands on me you vixen."

Mrs. G.—"You do, eh? Well, take that! and that!" (cuffing him on the head.)

G.—"You let go my hair, or I'll murder you."

Mrs. G.—"I will, and I'll leave this house this very night. I won't live any longer with such a monster."

G.—"Well, quit, get out. The sooner the better. Good riddance to bad rubbish, and take your duds with you."

Mrs. G.—"I'm sorry I ever married you! You ain't fit to be yoked with any decent woman."

G.—"Well, you ain't half as sorry as I am. Good-bye. Don't come back soon."

Then Mrs. Grimes put on her bonnet and went around to her mother's. Mr. Grimes hasn't yet confessed what his principal failing is.—*Phila. Bulletin.*

THE MARRIAGE LICENSE.

Hanging on to an Old English Custom.

There is something amusing in the English vanity which obstinately clings to marriage-licenses. These documents have become utterly useless and superfluous; no Briton is forced to march up to the musty office in Doctors' Commons, and pay his two guineas and odd for the Archbishop of Canterbury's permission to wed his lady-love. But there is a question of respectability in the matter, and the license fee is really a sacrifice to the good will of Mrs. Grundy. A Dissenter, or Roman Catholic is, of course, able to marry without regard to the laws relating to the State Church; but formerly a churchman could only take upon himself the dread responsibilities of married life by either publishing the banns thrice in his parish-church, or procuring a special license. Now neither of these forms is necessary, though both are still available. The would-be Benedict has a third access to the "for better or worse" condition, by the medium of the registrars of marriage who reside in every parish.

It is well enough for the rustic Joan and Darby to have their names announced from the parish pulpit, and tacked up on the bulletin at the church door, but he and she who would be "genteel" naturally shrink alike from the publicity and the business-like formality of the ancient and homely custom of the banns. The result is a very pretty little yearly sum returned into the treasury in the shape of license fees. There are grades, it would appear, even in the marriage licenses. The ordinary license permits a marriage if either bride or bridegroom has resided for over twenty-one days in the parish where they propose to be united. But a still more aristocratic license, and one which therefore costs no less than twenty-eight instead of two and a half guineas, conveys the consent of the Primate of all England that the parties may be married when and where they please, providing only that it be in a church of the Established Church. As this superior license is usually issued only to "the nobility, the judges, members of Parliament, and other persons of distinction," it is well worth the twenty-eight guineas to be in such goodly company. These restrictions, after all, seem to lose somewhat of their *raison d'etre* when they are reduced to a mere money standard and distinction. They were ostensibly constructed to prevent improper or illegal marriages; but now, it would appear, the intending bridegroom has simply to be richer by a few guineas to obtain the widest liberty as to place and time of marriage. —*Appletons Journal.*

"Looking for a Job."

When Arthur Wayne swung around in front of the desk and remarked that he was looking for a job, His Honor replied:

"That's too old and it's too late. You might have put in such an excuse a month ago, but I can't receive it now. The grass is up and growing, the honey bee is kiting around, and the music of the hand-organ makes the song of the morning lark dwindle to a single note. Spring is here, Arthur Wayne, glorious, big Injun spring. The vagrant season has closed. Ships sail up and down, red-painted rocking chairs may be seen on the ferry-boats again, and I'll put you behind the bars for a chronic loafer."

"Will you put me in prison?" asked the offender.

"I will."

"Will you let me get a drink first?"

"No, sir."

"May I send out and buy a bologna?"

"No, sir."

"May I borrow some tobacco of some one?"

"No, sir."

"May I go to the postoffice?"

"No, sir."

"Will you send me up for three months?"

"I will."

"That's more like it—I knew I'd carry my point," growled the prisoner, and he meekly sat down on a plug hat which some one had left in the corridor.

Confederate Prices.

The Columbus (Ga.) *Sun* quotes from its files some of the prices realized at an auction and private sale in that city in January and February, 1865, when "money" was plenty. Following are some of the figures: "Cow and calf, $360; fine brood mare, $4,500; negro twenty-one years of age, $3,050; negro girl, eighteen years of age, $3,700; Augusta shirting 6 a yard; salt, 85 to 88 cents per pound; pink satin, $70 per yard; cooking stove, 1,500; cow, $500; cloth shoes, $30; blankets, $70; dinner plates $82 50; per set; sugar, $6 to $7 75 per pound; silver coin; $1 for $45; bacon $4 to $5 per pound, pork $2 75 to $3,50 per pound; lard $3 75 to $4 50 per pound; butter $5 to $6 per pound; eggs, $3 50 to $4 50 per dozen: beef $2 to 2 50 per pound; corn, $14 to 16 per bushel; salt, $1 10 to $1 25 per pound; chickens $4 to $5 each; sugar $7 to $10 per pound; sole leather, $14 to $15 per pound; Irish potatoes, $50 to $60 per bushel; sorghum syrup, $12 to $16 per gallon; cane syrup, $16 to $20. Cotton brought 75 to 80 cents per pound."

"The Spreading Chestnut Tree."

Massachusetts is about to lose another venerable tree which has poetical associations. It is the identical "spreading chestnut tree" in Cambridge under which the village smithy" stood. It is to be cut down, but a portion of it will be preserved in the form of a chair, which is to be presented to Longfellow, who sent the smith and smithy down to fame.

The Widow.

Her smiles are temper'd by her sighs,
Her garb scarce veils her glory;
The tender glamour of her eyes
Enshrines her and her story!

No greenling girl, nor spinster tart,
She's all things that become her;
Her life, her beauty, and her heart
Are in their Indian summer!

BE STILL!

'Tis better far to speak no word at all
Than murmur *all* the changing heart may feel!
The sweetest words may sometimes taste like gall,
And soft hearts turn to citadels of steel!
The silent then are safest too, for such
Will never say too little, nor too much.

Tis better far to leave thy thoughts uncoined
In words, for then they cannot be purloined,
Nor mixed with baser metal, thus to be
Palmed on the public, a false currency!
A thought unspoken never loses power—
Outspoken, it may perish in an hour!

Thy heart is thine own castle. Lock the gate!
'Tis better far if it be desolate
To be sole witness of its empty shrine!
And if 'its peopled by a world of thine
Let *it* be silent! We can understand
The language spoken in that mystic land?

If thou *must* speak, of others speak but good,
As of thyself. Let this be understood:
If thou caust not of them a good recall,
'Twere better far thou didst not speak at all!
Be still! The silent are the wisest; such
Will never say too little, nor too much!

Force of Habit.

Force of habit in Texas is aptly illustrated by the San Antonio *Herald* as follows: "Look here, my friend," said the clerk of one of our hotels to a rough customer from the frontier, who was about to take his place at the dinner table with his sid shooter at his hip, "you'll have to leave that in the office until you leave town." The frontiersman objected because he was not used to sitting down at the table without his "weepings." The clerk refused to pander to the whims of the guest, although he was willing he should wear the empty holster of the pistol, but the whole matter was finally arranged without prejudice to the honor of either party, by the guest taking out of the weapon all the cartridges but one, which was retained to secure respectful treatment from the waiter.

Clara Morris.

Clara Morris has now in her possession an admirable copy, by Sir Joshua Reynolds, of his famous portrait of Mrs. Siddons. She purchased this art treasure while abroad last summer, and it has just reached her residence. Miss Morris, who attended Mlle. de Belocca's benefit on Monday looked charming, if not altogether well, will probably appear soon at the Union Square Theatre, acting in either the new play of "Consience," or an adaptation of Barriere's "Cendrillon." If the latter piece is produced, she will enact the *role* created in Paris by Mlle. Delaporte.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, April 27, 1876.

With all the fluctuations in the money market, the tendency is toward ease. The banks reported yesterday a fair amount of business, which included an improved line of deposits. Loans are applied for in moderate amounts, not up to the accommodating capacity of the banks, and are met at current rates, which are barely up to the legal standard. We hear a very confident expression from many that the tendency of business is toward a better condition of activity, both as to sales and prices. The rates charged for interest remain unchanged.

In the bankrupt court, yesterday, it may be noticed that the Citizens' National Bank filed a bill to have George W. Cass and the Cambria Iron Works declared general partners with Harbaugh, Matthias & Owens—the idea being of course to draw them into the bankruptcy of the other parties.

We are already witnessing the fluctuations in the price of silver bullion, which, if it should run upwards instead of the opposite direction, as it has, may cause an inconvenient absence of our new hand-to-hand silver currency. For instance, on Friday last there was received from London a press dispatch reporting silver there down to 53½d. per ounce. If this price is correct then the value in gold of $100 subsidiary silver coin is $83.91, and the value in gold of the proposed new silver dollar would be 89¾ cents. This decline is equivalent to nearly 2 per cent. in forty-eight hours. While silver in bullion declines in price there is no danger of it going to the melting pot. It will remain in circulation, being worth almost as much for use in circulation as money as it would be as bullion. But let it advance to and above 51, or any price that makes it more valuable as a commodity, and we are in danger of losing it as small change. This is a thing to be feared. If it may be held at a fixed value, and remain in circulation, the small coins will be generally welcomed.

The new United States 5 per cent. bonds which the Treasury sold on Monday were with interest from May 1—that is to say, with the May coupon or interest up to May 1, of 1¼ per cent. cut off. The equivalent in gold of that day's market price (118⅜) is 105 32 gold, or, deducting the 1¼ per cent. accrued interest, 104 07.

The gross earnings of the Denver and Rio Grande Railway for the month of February were $30,507, against $23,659 in corresponding month in 1875, an increase of $6,847. The earnings were $15,883, against $13,301 in February, 1875, a net increase for the month of $5,501.

The imports of bar iron into Great Britain during February amounted to 3,585 tons, as compared with 1,140 tons same month last year; and the imports of unwrought steel were 618 tons, against 528 tons.

Condition of the Markets at Home and Abroad.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY April 26, 1876.

The general position of the leading merchandise markets has not varied much for some days, and while the demand for almost everything is of the hand-to-mouth order, there is a very fair and increasing business in the aggregate. Wheat is weaker, and Flour is sympathizing. Provisions continue offish, with indications favorable for a lower range of prices. Potatoes, under the influence of increased receipts, dull and lower.

APPLES—Green Apples continue dull, and prices are weak and drooping; sales at $3,50a5, according to quality and condition.

APPLE BUTTER—60a65c.

BEANS—There is a fair demand, but no improvement in prices; $1,12a1,15 ℔ bu. for prime navies to the trade, and $1,20a1,25 in a jobbing way.

BUTTER—Some of our commission men report an improved demand, but the general tone of the market continues in favor of buyers. Sales of prime to choice rolls at 25a28; choice dairy, 29a30c.

CHEESE—Several lots of new Cheese have arrived during the past week, and it is selling within the range of 16a12½c, as to quality. Prime old stock is in light supply, and still commands full prices; we continue to quote prime Ohio Factory at 13½a14c; do. New York, 14½a15.

CRANBERRIES—In light supply, but there is not much inquiry, prices, however, are fully maintained; $15a16 ℔ bbl.

DRIED FRUIT—There is an increasing demand, but as yet there has been no improvement in prices. Apples—prime qrs, 10a10½c; choice sliced. 10½a11c, southern, 8a9c. Peaches, 12a12½ for prime halves; peeled, 18a22c. Blackberries, 12a14c. Pitted Cherries, 23a25c; unpitted, 5a6c. Raspberries, 28a30.

EGGS—In good supply and light demand, but it looks as if prices had touched bottom at last; we continue former quotations—14a15c.

FLOUR—Trade is only fair; but prices remain unchanged. Spring wheat flours, $6,25a6,50 for fair to good, and $6,75a7 for choice Minnesotas; red winters, $6,50a$7; ambers, 7,25a7,50; fancy white wheat and patent process, $8,75a9,50. Rye Flour, 4,75a5.

GROCERIES—There is a continued fair degree of activity, but no new features to which reference has not previously been made in these columns. Country orders are coming forward freely, and our merchants generally report that they have been quite busy for some weeks past.

PITTSBURGH LIVE STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, April 26, 1876.

ARRIVALS.

	This week.	Last week.
Cattle	324 cars	380 cars
Hogs	88 cars	112 cars
Sheep	83 cars	99 cars
Total	495 cars	591 cars

Briggs, Dock & Drum, Commission Merchants for the sale of live stock, at the East Liberty Stock Yards, report the market as follows:

CATTLE.

Of the 324 cars reported for the week ending at noon to-day, 233 cars were through and 91 cars local against 318 cars of the former and 63 cars of the latter for the preceding week; sales, 1,065 head; preceding week, 644. As will be seen, there was an increased number of local and a large falling off of through consignments, in consequence of which there has been a more hopeful feeling and a more active market, but without any general or quotable improvement in prices. There were quite a number of country buyers in attendance; Philadelphia and New York were also better represented, and then our local butchers have been buying pretty freely; as yet but few purchases have been made for the eastern markets; several lots have been taken by New York buyers, and Philadelphia will no doubt buy some between now and the close. Country buyers and butchers have been taking the great bulk of the cattle sold here for several weeks past and but for them trade would have been very thin; indeed, we would have had no market at all. As already stated, it is a little better this week, there is more activity, but no improvement in prices. Following may be regarded as the ruling

SHEEP.

The run on Monday and Tuesday was fair, and trade was rather slow with no change in prices as compared with the close of last week. Yesterday (Tuesday), afternoon, however, some of the buyers, realizing that the run was not likely to be a large one, bought more freely, and to-day a much stronger feeling on the part of sellers was developed, resulting in an advance of 25cts. on all grades, excepting common, which are hard to sell at any price, and we incline to the belief that it would be to the interest of owners to keep this scalawag stock at home. It is worthy of notice that clipped, everything else being equal, are selling more readily and at better prices relatively than wooled sheep.

HOGS

There has been very little change in the general position of the market since the date of our last report; while the arrivals were comparatively light, the supply was pretty well up to the demand, hence, prices have not fluctuated much. Smooth York Hogs, weighing 200 lbs, are selling at 8cts.; common Yorkers, averaging 130a170 lbs, 7,40a7,75; Philadelphia Hogs, averaging 250a300 lbs, good quality, 8¼a8⅜; bulk of the sales within the range of 8,30a8,40, and Yorkers, at 7¾a8, with a few good mixed lots, at 8,10. Chicago was reported off yesterday, and the general tone of the market was weaker to-day in consequence.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, April 26, 1875.

The Crude market was very irregular to-day, prices fluctuating from 5 to 7cts. per bbl. United was quoted at from $1,70a1,72½, and imediate shipment from $1,85a1,92½. It looks as if the "bulls" and "bears" were both at work, although, possibly, it is all illegitimate. Refined continues quiet and devoid of anything really new or important to which reference has not previously been made; there appears to be little or nothing doing, and prices have undergone but little change for several days. Philadelphia, delivery quoted at 13⅜; New York quoted at 13¾; on cars here, 10⅛a10¼.

The Barrel market continues dull but unchanged; countries. $1,15; city make, $1,20.

Chicago Lumber Market.

WE clip the following from the *Tribune*: The largest fleet of the season was offered at the sale docks yesterday. In the morning about 30 cargoes were counted, all hailing from the east shore of the lake, communication with Green Bay ports being still interrupted by the ice. Only a few mills have started up yet, and most of the lumber now arriving was cut last fall, and the receipts are likely to be small until next month. Yesterday the market was dull and weak. Several dealers were looking about, but evinced little desire to take hold at the prices asked, claiming that their stocks were ample for the present local and country demand. Piece stuff was slow at $9,00, the asking price, and inch lumber sold at $10a12,12½. Common inch was chiefly inquired for at $10a11. Lath sold at $1,50, and shingles were quoted at $2,20a3,30.

At the yards a moderate business was reported at irregular prices. Following are the revised quotations:

JOHN KABERNAGLE, Sergeant, Signal Service, U. S. A.

THE stage of water last evening was 6 feet 5 inches, and rising; this rise which was rather unexpected, is out of the Monongahela. Weather continues very favorable for outdoor business, which, while it is improving, is not all that would be desired by any means.

THE towboats John Penney and James Gilmore, arrived.

THE Smoky City left Louisville on Monday for New Orleans with a big tow.

ROBERT GORDON takes the place of Geo. Littleton as pilot of the Granite State.

BOTH the Allegheny and Monongahela were reported rising at headwaters yesterday.

JOHN A. MOUCHON is Secretary of the New Orleans and Red river Pilots' Association.

THE Granite State is due from Portsmouth today, and will return to-morrow, as usual, at 4 P. M.

CAPT MARY R. FISHER has bonded out the Warner, and she is still for sale, together with her barges.

THE Mary Miller, Capt. J. N. Shunk, is, as will be seen by card, announced to depart for St. Louis to-day.

THE Grand Republic arrived at New Orleans on Sunday, and left for the jetties Monday, with her excursionists.

CHARLES SEAMAN, formerly of the Carrie V. Kountz, will be clerk of the new Paragon, being completed at St. Louis.

HIGH words passed between two steamboat captains on the wharf yesterday, but, fortunately, it did not come to blows.

IT is stated that Capt. Sam. Shuman, late of the Exchange, is negotiating for the machinery of the Shamrock, for a new boat.

THE net earnings of the Cincinnati and Pomeroy packets for March were in the neighborhood of $10,000. Last week one boat alone paid into the treasury $1,200.

THE Mallie Ragon, from Wheeling, and Emma Graham, arrived and departed. The Graham had a good trip both ways. Both boats were delayed several hours on Tuesday night by fog.

CAPTAIN SAM VANZANT has contracted with R. W. Dugan to raise the D. A. McDonald. The Eckert will go up the river and raise the sunken boat when the water falls a few feet more.

THE John L. Rhoads is filling up steadily for St. Louis and the Upper Mississippi, and passengers and shippers can rely on her leaving as advertised, Saturday next. Messrs. Fisher and Greenlee are associated together in the office.

J. SHARP MCDONALD, ESQ. and Captain John Dippold, of Pittsburgh, have closed their contract for stone for the jetties, and have left New Orleans for Pittsburgh, accompanied by Mr. W. R. Hester, one of the Jetty Company's superintendents.

THE Dubuque papers say that the Northern Line intend to fight the wharfage question at that point, as they have already done at Keokuk, and as the Keokuk courts have decided against the line, they have carried it to the Supreme Court of Iowa.

A MOVEMENT is being made by the steamboat and other business men on the river to petition Congress to devise some means whereby navigation will be more fully protected on the Mississippi river from the destruction caused by bridges.

THE Coal City and Nellie Speer, going down, passed Cincinnati on Monday, and the Grand Lake and Coal Valley, arrived there the same day. The Coal City and B. D. Wood, left there the same day for this port. The Wood has the propeller Waverly, a covered barge and four empty barges in tow.

THE Cincinnati *Gazette* of Tuesday says: The Hornet No. 2 started up the river Sunday at 12:30 P. M., with four empty barges and a barge of empty oil barrels, but upon arrival at Augusta she was compelled to drop her tow and return to this city to repair burnt boilers. It was expected that her repairs would be completed in time to make another start up the river this morning.

BILL PATTERSON will return to St. Louis from Butler, Pennsylvania, in time to mate the Grand Republic next trip with Mumbower. He recently sold 14 acres of his farm for $9,000 cash, and is to get every fourth barrel of oil. Of this farm in Butler Country, 120 acres are underlaid with coal, and is estimated to be worth $100,000 cash, and still the gentle William wants to work on the river. He is the husband of an estimable wife, and the father of three children—the last two being twins.

THE Cincinnati *Commercial* of Tuesday, says: Among the Arlington's passengers, making the round trip from Pittsburgh to St. Louis and return, we notice Albert B. Bunting, one of her old clerks, and Mr. Jas. Shepherd, a son of Capt. Asa Shepherd, of Wellsville, O. Rev. J. B. Worrall, son of Dr. J. M. Worral, of Covington, Ky., a recent graduate of the Theological Seminary in Allegheny City, preached last Sunday to the Arlington's passengers, his text being from the 11th chapter of St. Mark, 17th and 18th verses. Mr. W. W. Ackley, assisted by Brother McConnell, led the the impromptu choir.

SPECIAL NOTICES.

☞ PROFESSIONAL NOTICE.

Drs. Jordan and Davieson

Principals of the Institution of Anatomy, 807 Chestnut street, Philadelphia, Lecturers on Anatomy, Physiology and Science, inform their friends and patients that they have again opened a branch office for the practice of their profession at No. 2 EIGHTH STREET, PITTSBURGH, PA., where one of the firm may be confidentially consulted, more especially in all those cases of diseases and debility, for the treatment of which they are so justly celebrated. It is too well known that hundreds, nay thousands suffer from the effects of early indiscretion and seek in vain for relief, for none but the educated physician who has made these subjects a specialty is likely to succeed in restoring the patient to health and strength. To all such Drs. Jordan and Davieson offer certain and speedy relief, and undertake no cases but those in which they are able to guarantee a safe, certain and permanent cure. Their important Medical Work may be had from their office, No. 2 Eighth street, on receipt of 25 cents, and also as usual from their head establishment, 1625 Filbert street, Philadelphia. Hours of consultation from 10 A. M. to 2 P. M., and from 5 P. M. to 8 P. M. Sundays from 10 A. M. to 2 P. M. Every case is strictly confidential. d&S

☞ KEYSTONE DISPENSARY, No. 302 Penn street, Pittsburgh, Pa., a special institution, having a Union-wide reputation for the reliable and successful treatment of Private and Urinary diseases, Spermatorrhoea, Seminal Weakness, Impotence, etc. Everybody should read TRUE MARRIAGE GUIDE, 144 pages; illustrated; cloth and gilt binding; about wonders of reproductive system, marriage, proper age and condition, marriage impediments, causes and consequences. Price 50 cents. Address as above, or call DR. WHITTIER. d&S

☞ PRIVATE DISEASES.—OFFICE 194 PENN STREET, next door to the St. Clair Hotel. For the cure of all diseases of a private nature in from two to four days, by an entirely new and safe treatment. Also, seminal weakness, impotency and all other diseases of the genital organs, and their prevention. A cure warranted or money refunded. Has Diploma in the office, and is a regular physician of 20 years standing in this city, and has cured over 10,000 cases.

For Circulars and Book, 10c., address DOCTOR W., 194 Penn street, Pittsburgh, Pa.

Office hours from 8 A. M. to 5 P. M. Sundays excepted.

Horne & Co.'s Second Opening.

The attention of dealers, milliners and others is directed to the second opening, to take place to-day, at the wholesale rooms of Messrs. Joseph Horne & Co., No. 77 and 79 Market street, of a superb assortment of French Pattern Hats and Bonnets, Straw and Silk Millinery Goods, etc. These goods have been selected with great care, are of the latest and most fashionable styles, are of extra value, and unsurpassed in extent and variety. Intending buyers would do well to call early and secure choice lots.

A Confidence Game.

Night before last three men stayed all night at Fred. Crone's saloon, No. 684 Penn avenue, paid their bill in the morning and last evening returned, and entering the bar-room ordered supper. Crone went back to give the order, and when he returned the men said they would go down street and be back for supper soon. Shortly after they left Crone discovered that a pocket-book that was in the bar-room drawer was gone also. It contained $95 in money and Crone's naturalization papers. Somebody else ate the suppers.

Funerals by Railway.

Under this caption we made mention in a recent issue of this paper of a proposed public cemetery, to be reached by railway from Union Depot.

The enterprise has already taken quite definite shape, and is, in another column, fully presented to the public.

However opinions may differ as to how soon such an institution will be an absolute necessity to all large cities, there can be little doubt in any one's mind that it is only a question of a few years more or less. As to the particular scheme in question, we can freely say that it bears evidence on its face of being well considered in all its bearings, and we think all who carefully examine it will concur in this view.

The Knife on Carson Street.

A fight occurred on Carson street, near Eighth street, South Side, yesterday afternoon that narrowly escaped ending in a homicide. Two young men, one named Annan and the other Gearing were discovered tussling in the street, and suddenly a shout went up from one of them "I am stabbed." They immediately separated, and an examination was made of the one who believed himself cut, and it was discovered that though his clothing was cut through the knife had escaped his flesh. It was Gearing upon whom the knife had been used. He resides out of town, and the cause of the fight between himself and Annan did not transpire. A few hours after the affray officer H. B. McCurry captured Annan and locked him up in the Twenty-first street police station, where he is held for a hearing before Deputy Mayor Schaffer.

"SHE'LL BE RUINED!"

A Wife's Frantic Grief Over a Brother-in-law's Marriage.

Last evening a policeman on Fifth avenue extension heard terrible screams coming from Chase's row. In duty bound he sought the cause, and found a woman in one of the houses tearing her hair, ranting, raving and screaming. The moment she saw the blue-coated conservator of the peace, she exclaimed "O, policeman; my sister is going to get married, and I can't stop her! She'll be ruined! She'll be ruined!" The policeman calmed her enough to gather from her that her sister was about to be married to her (the screamer's) husband's brother, and although she had done all she could to prevent it, the two were determined upon joining hearts, hands and fortune. The latter being fully told by 000 was the principal cause of the hysterical demonstration. The blue-coated gentleman could offer her no advice, however, except that it would be well for her to moderate her grief so as not to alarm the whole city, as she had already done the neighborhood.

THE TEST TO BE MADE.

Allegheny Water Committee Assumes the Duty—It Will Cost $1,200, But Must Take Place.

A special meeting of the Water Committee of Allegheny Councils was held last evening, Mr. James Callery presiding. It was for the purpose of taking some further action in regard to testing the Lowry pumping engine. The sub-committee appointed to arrange the matter reported that they had not been able to complete the arrangements, and they submitted the communications received by them from Mr. Lowry and Mr. Hemphill, appointing judges. On motion of Mr. McGuire Mr. Lowry's communication was laid on the table, and Mr. Hemphill's placed on file. After a lengthy discussion, during which Mr. Hemphill, who was present, stated that if the city made the test it would cost between $1,000 and $1,200, the committee resolved, on motion of Mr. Drum, to nominate persons and elect its own judges. The gentlemen nominated were F. Slataper, Chief Engineer of the P. Ft. W. & C. R. R.; Charles Davis, City Engineer; Reuben Miller, of Miller, Barr & Parkin; Mr. Nichols, and Mr. Durgin, Superintendent of the Pittsburgh Locomotive Works. On proceeding to a ballot, Mr. Slataper received eight votes, Mr. Davis two votes, Mr. Miller seven votes, Mr. Nichols four votes and Mr. Durgin six votes. Messrs. Slataper, Miller and Durgin were declared elected. It was agreed that the judges should fix the time for the test.

Messrs. McNaugher & Co. were directed to proceed with the puddling of the eastern compartment of the water basin and to have it done by June 10th.

A communication was received from Messrs. Gibson & Riddle protesting against the awarding of the contract for furnishing miscellaneous castings to Thos. Carlin, but no action was taken on it.

Messrs. James Marshall & Co. declined to receive the contract for making the sleeves and branch pipes at their bid of three cents per pound, and the contract was awarded to Wm. Smith & Sons at three and one-fourth cents for sleeves and three and one-eighth for branch pipes.

A NEW MOVE.

The Security Trust Company Asked to Come Forward and Settle its Accounts Under a Plea of Fraud on its Part.

In the Clerk's office of the Common Pleas Court No. 2, yesterday, a bill in equity was filed by the First National Bank of the Republic, of Boston, Mass.; the First National Bank of Connellsville, Pa.; the First National Bank of Lynn, Mass.; the First National Bank of St. Clairsville, Ohio; the First National Bank of Cleveland; the National Bank of Wooster, Ohio; the First National Bank of Hollidaysburg, Pa., and several other banks, and James Gardner, L. J. Lemmert & Son, and other individuals, against the directors and trustees of the Security Trust Company. The petitioners are creditors and stockholders of the defunct Company. The allegations are that the defendants, under pretended authority of the General Assembly of Pennsylvania, formed "The Security Safe Deposit, Trust and Guarantee Company," the object of the association being as stated by them to receive deposits and loan money upon approved real estate security only. Relying upon such representations the orators deposited with said defendants various sums of money, and at the time of the suspension of the Company there was due to plaintiffs on account of such deposits an aggregate of $165,000. The orators further allege that the company was not legally organized according to the act of incorporation, because, first, that subscriptions of stock were not taken by the corporators named in the act, but by one of the defendants, James T. Brady. Second, that the sum of $50,000 required by the act was not paid in. Third, that a large amount of stock was subscribed by defendants and others and no consideration paid therefor, and many at the instance of Brady became nominal owners of shares in order to give credit to the company. Fourth, that Brady was allowed to hold and represent a large amount of stock. Fifth, that they were not authorized to do a banking business in Pittsburgh. Sixth, that though they held themselves out as transacting a banking business at No. 54 Wood street, they allowed Brady to use a large portion of the funds in his private bank.

Therefore the plaintiffs pray for equitable relief, and ask that the defendants may be compelled to account to them for all the money lost by reason of negligent and fraudulent management, and that they be ordered and directed to pay to the assignee, George A. Berry, the amount of money so lost. Messrs. John Barton, Weir & Gibson, and Slagle & Wiley are petitioners' counsel.

Court Brevities.

JAMES LEE, convicted of assault and battery upon Lieutenant Johnson, was yesterday sentenced by Judge Kirkpatrick to pay one thousand dollars fine, and to imprisonment in the Workhouse for one year—the utmost limit of the law. In passing sentence His Honor remarked that it was only by the skill of his counsel that the prisoner had escaped conviction of felonious assault and battery, and that had he been so convicted, he would have been sentenced to the utmost limit of the law—two thousand dollars fine and seven years to the Penitentiary.

THE petition filed in the United States District Court yesterday, by the Citizens' National Bank, for a rule upon Messrs. Harbaugh, Mathias & Owens, to show cause why they should not amend their petition by joining George W. Cass, Esq., and the Cambria Iron Company as general partners of said firm is an unusual move. The bank is creditor of the firm to the amount of $35,000, and the petition recites numerous facts to prove that Cass and the Cambria Iron Company were general partners in the firm, and the indebtedness was incurred with that understanding. The rule was granted, and is made returnable on the 26th prox.

Large Ejectment Suit.

In the Common Pleas Court No. 1, yesterday afternoon, Samuel S. Brown, James Ward and Lizzie B., his wife; Jas. Schoonmaker and Alice B., his wife; James H. Brown, Charles S. Brown, and Wm. Henry Brown commenced suit in ejectment against James Shaw and William Plum, to recover eighteen acres of land in Versailles township. The landed is bounded on one side by the Pittsburgh and Connellsville railroad, and is worth about $30,000. The defendants have been in possession since April, 1872, and, of course, assert their legal right to the property.

BREVITIES.

Pargraphic Pencilings of Passing Events.

····Allegheny Coucils this evening.

····The meeting of the stockholders of the Tarentum Camp Ground will be held to-day.

····Sam. Sanford's minstrels appear again at the Academy of Music next Monday night.

····The Pittsburgh Barge Club is arranging a regatta to inaugurate the boating season. An elegant silver cup will be the prize.

····John Powers was discharged from the city police force yesterday for indulging in too extensive a jamboree over the birth of a son. It got him into trouble with Pat. McGee, and both were arrested.

····Messrs. Fox, Neeb and Dickson, of the Police Committee, made a visit of inspection to the city station houses last night. They are unanimously of the opinion that the perfume which these institutions exhale is horrible.

····Yesterday a tramp, hailing from Pittsburgh, whose name is Edward O'Connor was struck by the locomotive of a freight train near Elizabeth Furnace and received injuries that will be likely to prove fatal. He was taken to Altoona.

····Chief of Police Harris, of Johnstown, telegrahped to Chief Hartzell to hold the boys who were arrested on Monday night at Hawkin's station with a quantity of supposed stolen tobacco in their possession. Officer P. Rodgers last night reached the city and took the offenders back to Johnstown.

····The residence of Mrs. A. W. Black, at Sewickley, was robbed a day or two ago by a colored domestic of $100 worth of jewelry, laces, napkin rings, &c. The woman was arrested, and the articles recovered, but Mrs. Black declined to prosecute, and the prisoner was released on her own recognizance.

····The prison opened its doors yesterday to receive Michael Carey, who stole a $240 gold watch on Tuesday night, at Dhrew's hotel, from Alexander Wernitt, who has earned the sobriquet of the "Big Bonanza" because of the lavish manner in which he spends his money. The watch was found in Carey's stocking.

····At yesterday's meeting of the Humane Society the record of Superintendent Street showed that one chicken fighter had recently paid a fine of ten dollars and costs, and that thirteen additional suits have been instituted against other parties who will persist in compelling the gallinaceous birds to claw each other's eyes out.

····Cyrus Donaldson simulated intoxication on Tuesday night. He got a raftsman in a dark alley near Sixth street, and while talking to him in a maudlin sort of a way attempted at the same time to pick his pocket. It was a neat game, but Officer Mannell saw through it, and yesterday Donaldson was committed for trial.

····Several guns have been recently stolen from the ordnance department of the Duquesne Greys. One was found in the possession of a man who said he had purchased it at the close of the war. Inasmuch as the weapons were made in 1870 it is hoped, in the interest of truth, that he referred to the more recent war between the Italians and miners at Beuna Vista.

····Chief Hartzell has received a telegram from Arthur Macedo, one of Dom Pedro's suite, asking if there is a young lady named Fannie McManus in a convent in this city, stating that he would desire to communicate some information to the young lady when the imperial party passes through this city upon their return from the Pacific coast. Chief Hartzell has made diligent inquiry of the Catholic authorities, but there is no person of that name in a convent here.

····Wm. Knee, a McKeesport constable, yesterday brought down an insane man named Andrew Franklin, and wanted to incarcerate him in the county jail. He was informed by Warden Smith that the man could not be received. The constable therefore went before 'Squire McMasters and made information against Franklin for disorderly conduct. A commitment upon that charge was made out, and the man was lodged in jail. Later in the day the matter was brought to the attention of Judge Kirkpatrick, and he made the requisite order for the transfer of Franklin to the Dixmont Asylum, whither he was conveyed.

PERSONAL.

***Dr. M. S. Hulings, a well known South Side physician, died yesterday morning at his residence in the Twenty-sixth ward.

***Mr. George Howe, last week elected Assistant Superintendent of the Reform School, has resigned because the duties of the position are to arduous.

***Mr. John D. Roddy, of the Fayette county bar, was yesterday admitted to practice in the Courts of this county. The same privilege was extended to Albert C. Johnson, of Armstrong county.

***A number of railroad officials, among whom were Frank Thompson, General Manager; G. Clinton Gardner, General Superintendent; Mr. Lockhart, Superintendent of the Philadelphia division, and Mr. McCrea, of the middle division, were in the city yesterday, on an inspecting excursion. They went out over the West Penn road in the afternoon.

A Successful Operation.

About two months ago Dr. T. F. Frank, of 140 Penn avenue, operated on a Mrs. Margaret Marshall, of Enon Valley, Pa., for cancer of the left breast, by an electric process, known by doctors as "Electrolysis," or chemical decomposition by the electric current. The lady is sixty-seven years old. The cancer had existed for two years, and her case had been pronounced by able medical men as incurable by the ordinary methods of surgery and medicine. By this process the cancer was removed in a few minutes. The patient recovered rapidly and has ever since enjoyed good health.

Dr. Monroe, of Mercer, Pa., had his attention drawn to this particular method which had proved so successful, and carefully investigated the circumstances attending the case, and became satisfied with the truthfulness with which it had been described. Last week the conscientious physician sent one of his patients, the wife of the Rev. G. Kranz, of New Hamburg, Mercer county, Pa., to Dr. Frank for the removal of an enormously large Fungoid cancer of the right breast. The operation was performed by Dr. Frank in the presence of a number of surgeons at the Young Men's Home, and the patient is now in a fair way of recovery. Dr. Frank is a physician of many years' extensive and successful practice in the city of Buffalo, New York, and is the first to introduce electrical surgery in this city, and is in no way connected with any parties who have preceded him of the same name. The doctor has hundreds of truthful and unsolicited testimonials from patients who have been restored to prime health and vigor by means of his electrical curatives.

Catarrh is a Common Disease,—so common that snuffing, spitting, and blowing of the nose meets us at every turn on the street. Your foot slips in these nasty discharges on the sidewalk and in the public conveyance; and its disagreeable odor, contaminating the breath of the afflicted, renders them offensive to their associates. There is the highest medical authority for stating that with fully one-half, if not two-thirds, of those afflicted with Consumption of the Lungs, the disease commences as Catarrh in the nose or head, the next step being to the throat and bronchial tubes—lastly to the lungs. How important then to give early and prompt attention to a Catarrh! To cure this loathsome disease correct the system by using Dr. Pierce's Golden Medical Discovery, which tones it up, cleanses the blood, and heals the diseased glands by a specific influence upon them; and to assist, use Dr. Sage's Catarrh Remedy with Dr. Pierce's Nasal Douche. This is the only way to reach the upper and back cavities where the discharge comes from. No danger from this treatment, and it is pleasant to use. The two medicines with instrument are sold by dealers in medicines. TTHS-S

The only certain remedy to make "hard times come no more" is to practice the strictest economy in the purchase of articles of necessity and luxury. One method of doing this is to buy all goods where the most money can be saved in the purchase, and one of the places where this can be done is the Boot and Shoe house of B. Taggart, No. 129 Federal street, Allegheny. There is no getting over the fact that Taggart does sell cheaper than any other shoe house in the two cities, and that the saving of twenty cents on the dollar is quite an item. It amounts to at least the saving of 50c to $2 on every pair of boots or shoes sold.

IDLEWOOD CEMETERY.

Funerals by Railway.

It must be apparent to every one that the question "How shall great cities dispose of their dead?" cannot be satisfactorily answered by any of the proposed devices for their *destruction* by "cremation" or any other rapid process of decomposition. All the instincts of our nature recoil from any such suggestion.

It is not by a departure from a custom having its sanction in the sacred and profane history, as well as in the earliest traditions of our race, that we shall solve the problem. But rather in simply adapting the observance of the custom to the changed conditions of city life as it exists to-day, and as on other occasions employing the railway car. There is no other solution. The cemetery of the future *must be* accessible from all parts and surroundings of the city by railway.

The reasons for this inevitable conclusion are many and sufficient. It is a question of but a brief time when sanitary and business conditions will again compel the abandonment of further interments within the boundary of the growing city, which already has encompassed the more important of our existing cemeteries, if it shall not be even required to remove the dead, as was the case but recently with the graveyards once far outside the earlier city limits. And it will perhaps be a briefer time when the surphurous and acrid vapors of our thousand furnaces will not only destroy the vegetation, but will corrode the very marble monuments themselves, and make it impossible to preserve the present beauty of these establishments even if their continuance could otherwise be assured.

And, from an economic point of view, the steadily increasing cost of the necessarily limited space available takes the ownership of even a single 'lot' out of the reach of the average family, and the cost of "carriage hire" compels all but the very wealthy to limit the number of attendant funeral guests, or to entail on themselves a tax which deprives them of the ability to care for their graves as they would desire. And again, the time required and the delays incident to this mode of transit prevents many, especially business men, from attending the funeral obsequies of any but their immediate relatives.

It is the mission of the locomotive to change all this. In many cities the change has been accomplished with the most gratifying results. Why shall Pittsburgh, with her peculiar situation especially requiring and especially suited to this step in progress, longer delay in taking it?

In the belief that it will satisfy all these considerations, and others of importance not adverted to, it has been determined to organize an association to establish and maintain

A PUBLIC CEMETERY TO BE REACHED BY RAILWAY, AT IDLEWOOD,

on the P. C. & St. L. Railway, in Chartiers township, six miles from Union Depot, and about three miles drive from the end of the new Point bridge.

Its projectors understand full well that the present is a most unfavorable time to inaugurate any new enterprise, if it requires large investments or large future obligations, and desiring to perfectly *assure the immediate* and *complete success* of their undertaking, having arranged its basis so as to *perfectly avoid both of these difficulties.*

The ABSOLUTE CONTROL of a sufficiently large area (157 acres) and perhaps the

MOST ELIGIBLE SITE IN ALLEGHENY COUNTY

has been secured, *without any present payment of purchase money, and without any obligation to pay within any specified time any specified sum!*

The present owner of the land having agreed to *assume all the risks* which ordinarily would fall on the company. And moreover, CERTAIN provision has been made *to secure beyond a peradventure* an

ENDOWMENT

of this company to an amount which cannot be less than from $300,000 to $500,000 for the improvement and perpetual preservation of the cemetery. This initial endowment assures the success and future great wealth of this cemetery as a PUBLIC INSTITUTION.

The financial and business basis is otherwise liberal to a degree (it is believed) never before equalled; and while it affords to the present owner of the lands a prospective liberal return for his investment and the risks which he alone takes, it secures to a limited number of first purchasers *opportunities of advantage and profit rarely found in any business at any time.*

Its plan of government will commend itself to every one. All affairs of the company will be controlled by a board of ELEVEN TRUSTEES, to be elected annually by the *owners of lots* within the cemetery.

The whole policy contemplated in the administration of its affairs has in view the establishing at this point of

THE CEMETERY OF THE FUTURE

for these cities. A Necropolis that will, at no distant day, cover its thousand acres, and will remain through all time a possession for a burying place for their people.

And to the end that those anticipations may be at once accepted as of certain realization, every condition calculated to give this institution a broad and deep foundation in the interests and sympathies of the whole community will be immediately made available.

The system of conducting funerals by railway, connecting with all the roads entering Union Depot, and running the coaches thence into the cemetery grounds, will be introduced under conditions that will afford the *fullest opportunity for every manifestation of consideration and respect for the dead,* and will, while providing for a greatly larger concourse of attendant friends, permit a very marked degree of economy in so doing.

The extensive grounds already secured and the vast adjoining acreage on which

THE CITY WILL NEVER ENCROACH,

and which can never have a purchaser in competition with the cemetery *assure the continuance* of such comparatively low prices as will enable those of even moderate means to purchase and beautify areas that will form a "family burying ground" for many generations, while those of greater wealth purchasing larger areas may *improve and embellish them to an extent and in a manner not possible in cemeteries,* where the exorbitant price of "eligible lots" confine the general purchaser to merely ground enough for the graves of his immediate household.

As a substantial and sufficient foundation for the expectations and purposes but briefly exposed in the above, a binding contract has been entered into with Mr. James H. Bell, the present owner of the larger part of the land intended to be first included in the cemetery, by which he agrees:

1st. To devote to the purposes of a public cemetery one hundred and fifty-seven acres of land at Idlewood.

2nd. Agreeing that said lands, and all affairs of the cemetery to be established thereon, shall be under the control of eleven trustees, to be elected annually by the owners of the lots within the grounds included in the cemetery.

3rd. Binding said Bell to give to the cemetery company FOR ITS ENDOWMENT one-eighth (2000) of all burial lots on his land; said lots to *be selected by the trustees* of the cemetery.

4th. Appropriating to the FURTHER ENDOWMENT of the cemetery one-fifth of the purchase money received for ALL OTHER lots on his land.

5th. The balance of the purchase money to be payable to Bell on conveyance of title for any lots sold by the company. Said purchase money to be represented on the books of the company in as many shares as there are burial lots of 256 feet area on Bell's land, and *the company or individual* first subscribers may, in lieu of the lots to which they are entitled, take an equal number of these shares and proportionately share with Bell in the whole purchase money.

6th. Four hundred of the two thousand endowment lots are to be sold to first subscribers at fifty dollars each, to produce a fund of

$20,000, TO BEGIN THE IMPROVEMENT

of the cemetery, under the direction of the trustees. The remaining 1,600 endowment lots, if judiciously selected and retained for future disposal, will no doubt realize from five to ten times that price, and with one-fifth of all other sales it would appear reasonable to assume that the total endowment thus provided for in excess of all payments of purchase money cannot be less than

$500,000,

which, with all other income and profits of the company, is to be used for the support, maintenance, extension and perpetual preservation of the cemetery.

Arrangements similar to those of Mr. Bell are in progress and will no doubt be concluded with the owners of adjoining lands sufficient to make the initial quantity over 200 acres, and it is also probable that

CHARTIERS CEMETERY,

adjoining this property, and an already well established institution, will be incorporated with, and in any event it must be substantially a part of the great cemetery to be here established.

Only a brief consideration of the foregoing suggestions and facts, and of the terms of the subscription to be signed by intending purchasers of the first 400 lots, will be necessary to establish the conclusion that this is beyond question THE MOST LIBERAL BUSINESS PROPOSITION EVER MADE IN THIS CITY.

Neither as individuals, nor as corporators, do the subscribers take the risk; *as individuals, they bargain for a direct individual consideration* of many times the value of their subscription; as a corporation, they acquire *as an incident of their organization, and without the payment of any consideration, an invested capital and vested rights* that will endow them, as a public institution, with hundreds of thousands of dollars.

The subscription paper is merely the agreement of the signers, that when the success and full endowment of the cemetery is assured (two facts that must give choice lots a value of at least from $100 to $300), they will then purchase one or more of these choice lots or shares at the minimum price of $50.

On this showing and on these conditions, subscriptions to the amount of

$20,000 ONLY

will be at present received. When that amount is reached the subscribers will be called together to organize and elect trustees. After the organization of the company it will be for the trustees chosen by the lot owners to determine on further action.

Subscriptions may be made, either personally or by letter, with

PITTSBURGH PRESBYTERY.

An Overture to the General Assembly Implying Rebuke to Dr. Hopkins—The Presbytery on Attractive Advertising of Sermons—Dancing of all Kinds Solemnly Denounced.

The second day's session of the Pittsburgh Presbytery begun this morning at nine o'clock.

Rev. Drs. Swift and Allison appeared as a Committee of the Presbytery of Allegheny to lay before the Presbytery the action taken by them, in which they sought the co-operation of the Sabbath. This action may be briefly stated. The action of Allegheny Presbytery was the adoption and placing in the hands of the committee an overture to the General Assembly, to reiterate and intensify the orthodox doctrine of the Sabbath, in view of the Continental doctrine of the Sabbath, promulgated in Pittsburgh by Dr. Hopkins, of the Cayuga, Ohio, Presbytery.

Leave being granted, the committee presented and read a memorial to the General Assembly on the observances of the Sabbath, and the whole matter was referred to a special committee.

An overture from the Redstone Presbytery, asking that the Pittsburgh Presbytery make a deliverance against all kinds of dancing, private as well as public, was temporarily laid upon the table.

In the afternoon session Mr. Jesse C. Bruce, a licentiate, was examined for installation and ordination, he having received a call from the congregation of Oak Dale.

Dr. Howard from the committee to whom was referred the memorial of the Allegheny Presbytery regarding the observance of the Sabbath, with particular reference to the case of Dr. Hopkins, reported the following substitute:

Resolved, In view of the recent attacks of the Holy Sabbath the Presbytery of Pittsburgh hereby overture the General Assembly to reaffirm the standards touching "the moral and perpetual obligation of the Fourth commandment," and to enjoin that these doctrines concerning the Sabbath be taught by all our ministers, especially by the Professors in our Theological Seminaries.

Dr. Howard then read a communication from the Cayuga Presbytery, which was called out by Dr. Hopkins' actions, affirming the sanctity of the Sabbath day, and reasserting the tenets of Presbyterian belief that the seventh day is the Sabbath, and that its holiness should not be infracted. The substitute was adopted.

Mr. Jno. A. Renshaw, the Treasurer, reported that during the year $606 had been received, $697.62 had been expended and that a balance remained in the Treasury of $587.45.

Rev. E. P. Crane, of the Western Theological Seminary, offered the following: In view of the fact that one of our ministers has made, or allowed to be made, in the public prints, from week to week, announcements of the subjects of his discourses, in terms not only enigmatical, but, in some instances, otherwise offensive to good taste and beneath the dignity of the Christian pulpit:

Resolved, That the Presbytery hereby bears its testimony against the practice as a violation of the spirit of the Third Commandment.

The resolution was directed at Rev. G. H. Humphreys, whose church is on the South Side, in Birmingham. The Presbytery were almost unanimously against the sentiment of the resolution. After some discussion, Mr. Humphreys arose and said that where he was located it was necessary to follow some such plan as he had been following in order to attract the peculiar people by whom he was surrounded to a place where the Gospel was preached. His method very likely did not suit the taste of Prof. Crane, and there were other things that possibly would not be agreeable to his taste, or to that of some other members of the Presbytery, possibly. Some times he went into a lowly hovel and knelt upon a greasy floor to pray with a poor woman. That was not nice, nor tasty, but it was the way to reach her soul, and this way he proposed to follow so long as he could. He believed that there were ministers in Pittsburgh who did not want the class that he was amongst to come to their places of worship. He did. It was his desire to have every ragamuffin and rapscallion in Pittsburgh hear the word of God from him, and if he could bring this about he would be satisfied that his Master would be satisfied with his work, even if there could be objections found with his method by the extremely fastidious.

Rev. R. R. Moore offered the following as a substitute:

Resolved, That Presbytery expresses its disapproval of sensational advertising of the subject of sermons in the public press.

More discussion ensued, the resolution being generally opposed upon the ground that it was impossible to properly define "sensationalism," and, upon motion of Prof. Wilson, the whole matter was laid upon the table, with but one dissenting vote.

The report of the Committee on Systematic Beneficence showed that a number of churches had failed to take up collections for the Boards of the Church, and that there were a number of congregations which had not paid the salaries of their Pastors. The report showed, further, that there had been a general falling off in all the collections. $24,992 had been collected for benevolent purposes, and for miscellaneous purposes, (which does not include salaries of pastors, or any congregational expenses), $50,000.

The following resolution was offered instructing the Commissioners to the General Assembly to inquire whether the Board of Publication had complied with the behests of the General Assembly in regard to the publication of temperance literature. It was strongly intimated by the Doctor that the Board of Publication had disregarded the injunctions of the controlling body of the church in this particular and the resolution was adopted. The same gentleman offered a resolution that the memorial of the Redstone Presbytery be taken from the table, where it had been laid in the morning, and that the Pittsburgh Presbytery renew its testimony upon the sinfulness of dancing. The resolution was adopted and the meeting went into recess.

The evening session was consumed by the young gentlemen who had been examined for licensure, and who presented latin exegesis and critical exercises and delivered lectures and popular sermons. At 9 o'clock the meeting adjourned.

ANOTHER VICTORY.

Second Defeat of the Xanthas by the Allegheny Club.

Such games of ball as the one played yesterday afternoon at Union Park between the Allegheny and Xantha clubs are worth seeing. While they do not create excitement they produce enjoyment. It was the best contest of the season, but that fact did not make it extraordinary. There has not been a first class game played here yet, but next week we expect to see two that will probably be distinguished by close, earnest and hard work. The contests that have already taken place were mere exhibition affairs and it didn't make much difference which club was victorious. On Tuesday next the Alleghenys and Neshannocks try each others mettle, and the Braddocks and Alleghenys are matched for Saturday of next week. The Xanthas and Braddocks play on the ensuing Saturday. Of the thirteen runs made in yesterday's game not one was earned. A good many first base hits were made but in no instance did the meritorious playing of the runner win him a score. Junkin covered himself with glory in the early part of the game by taking a hot liner with one hand. During the entire game the Alleghenys persistently knocked high balls to left field, and Zoller captured them with unvarying regularity. At least eight or nine were hoisted in his direction, and he did not miss one. Zoller is not much of a striker, but he can't be excelled on a catch. McClosky and Curry both did good work behind the bat. The former had but one passed ball, and the latter not more than two. David Patterson, of the Washington club, made a very fair and impartial umpire. The score of the game is as follows:

Xanthas.	O.	R.	*Allegheny.*	O.	R.
Keenan, 1 b	4	1	Lane, c. f.	4	1
Denny, 2 b	2	3	Rose, s. s.	5	0

ANOTHER HOUSE ROBBERY.

Will People Never Learn Wisdom?

Wm. F. Hunter, a one-armed man, had saved $2,700, and instead of putting it where it could not be stolen, left it in a trunk in the care of a man named Larkin, and when it was wanted, behold! it had disappeared. Had Hunter exercised a little common prudence he would have left his money at the *Safe Deposit Company of Pittsburgh*, where it would have been safe. How many others are doing the same thing and keeping their valuables in old hair trunks?
